GOEHRING BILL IS RECONSIDERED

After First Defeat It Is Again Called Up Before the House.

IT FINALLY FAILS, 96 TO 86

THE PITTSBURGH GAZETTE BUREAU, HARRISBURG, PA., April 12.

The Goehring newspaper retraction bill was twice defeated in the house of representatives today. Killed on final passage at the afternoon session 71 ayes to 114 noes, the bill was reconsidered at the evening session by a vote of 98 to 79, and, after a brief postponement of final action it was called up the second time and again defeated on final passage by a vote of 96 to 86.

Among the notable speeches in favor of the measure in the debate on the motion to reconsider was one by Mr. Francies of Allegheny, who said he voted against the libel bill of 1903, but he would vote for the Goehring bill because it was fair and just. "The passage of this bill," he added, "will secure to every resident of this commonwealth the same justice as is assured the newspapers."

The motion to reconsider was made by Mr. Jackson of Armstrong. Mr. Cooper of Delaware said he respected the author of the bill and Mr. Francies but he could not stand for the measure.

Among those who had voted against the bill in the afternoon and in favor of it at night was Mr. Bowersox of Snyder, who declared that his vote against the measure was because he had not given it careful consideration and that after reading it more carefully he was convinced that it was a fair bill and would work injury to no person. A testimonial for the measure was given by Mr. Thompson of Fayette.

Cooper's Amendment Lost.

"I am opposed to the legislature being asked every two years to vote for a libel bill at the behest of any man or set of men," declared Mr. Harmon of Columbia. After the adoption of the motion to reconsider, by a vote of 98 to 79, was announced, Mr. Francies moved to postpone final action for the present and his motion carried after an unsuccessful effort of Mr. Cooper to amend by postponing indefinitely. The amendment was lost by a vote of 98 to 83.

At the afternoon session when the Goehring bill was taken up Mr. Carson of Beaver asked unanimous consent to amend, but this was objected to. He then moved to go into committee of the whole for a special amendment which provided that if a retraction is "satisfactory to the court of the county in which the newspaper is published" then the injured party shall not be permitted to file a bill in equity, the original bill providing that the injured party shall decide whether a retraction is satisfactory. Mr. Carson's motion to go into committee of the whole was defeated, 67 to 77.

Measure a Fair One.

"I see no reason why the legislature should place on the statute books another law relating to newspapers," said Mr. Weingartner of Lawrence. "There is no demand from the people or the press for the bill. I am not interested in newspapers, but I am interested in seeing that the press and public get fair treatment. This bill would make it possible for any person who believed he had a grievance to file a bill in equity against a newspaper in any court of the county in which the newspaper circulates. The whole proposition is unfair and if it is to be fair the amendment offered by Mr. Carson should be adopted."

A vigorous defense was made by Mr. Shern of Philadelphia. "I am at a loss to know why any member should vote against so meritorious and fair a measure," said he. "I know of no reputable newspaper which will not retract if it finds it has libeled a person. It is fair both to the newspaper and the individual because if after ten days' notice an offending editor fails to retract then the agrieved person has redress in an appeal to court."

After Mr. Snyder of Schuylkill and Mr. Cooper spoke against the measure the house took a vote on the third reading of the bill. The vote was 71 yeas and 114 nays.

LOCAL MAN HURT IN TRAIN WRECK

Big Four Passenger Coaches Plow Into Switches at Bellefontaine, O.

THE BRAKES FAILED TO WORK

[BY ASSOCIATED PRESS TO THE GAZETTE.]

BELLEFONTAINE, O., April 12.—Train No. 43, between Cleveland and St. Louis, one of the fastest trains on the Cleveland, Cincinnati, Chicago & St. Louis railway, was wrecked here tonight, and seven persons were more or less seriously hurt.

THE INJURED:

S. SACKS of Pittsburgh; probably fatally. He was riding between the express and mail cars.

NATHANIEL CHANDLER, Weymouth, Mass.

MISS MARY RANKIN, St. Louis.

W. A. WHEELER, Union City, Pa.; back hurt.

G. H. BROUGHTON, mail clerk, Cleveland.

CHARLES BOWMAN, mail clerk, Fortville, Ind.

CHARLES QUAYLE, engineer, Cleveland.

As the train was pulling into Bellefontaine the brakes failed to work, and the heavy cars ploughed into the net work of switches at the crossing of the Sandusky division of the Cleveland, Cincinnati, Chicago & St. Louis, and the Ohio Central tracks, tearing the tracks up so that traffic cannot be resumed on the three lines for some hours.

Engineer Quayle and Fireman Dennis Hickey of Cleveland, remained on the engine. The express, mail, baggage, smoking car, day coach and diner, left the track and were overturned. The three Pullman sleepers were not damaged. The wrecked cars are all badly smashed and the passengers were thrown about and bruised.

Escaping steam gave the impression that the wreck had caught fire and the fire department was called out.

CASTRO IS SAID TO WANT BOWEN RECALLED

But No Formal Request Has Been Received—No Immediate Change In Situation Expected.

WASHINGTON, April 12.—(Special.)—Secretary Taft has been conning the exchanges between Minister Bowen and the Venezuelan government at Caracas three weeks ago, when the United States requested that pending differences should be considered serious, but he expects to make a decision tomorrow as to Mr. Bowen's continued status at Caracas. President Castro would like Mr. Bowen recalled, but he has not yet requested it.

From his perusal of the notes between Mr. Bowen and the Venezuelan minister of foreign relations, Secretary Taft concluded that the Venezuelan government's answer, which was a refusal to arbitrate, was not insolent. At the same time it might have been more conciliatory.

The best official opinion available tonight is that there will be no startling change in the Venezuelan situation until President Roosevelt returns.

President Castro left Caracas for a month's trip in the interior.

Alton Parker's Sponsor Dead.

ATLANTA, GA., April 12.—(Special.)—Washington Dessau, one of the foremost lawyers in the state, fell dead while arguing a case before the state supreme court here today. Mr. Dessau was prominent in politics and led the successful fight for the indorsement of Judge Parker in the last Democratic state convention.

ROME, April 12.—According to the Italia, the Countess Montignoso absolutely denies the report published in the official press of Saxony that she will return her child, Princess Anna Monica Pia to the king of Saxony, her former husband, in consideration of a yearly pension of $15,000.

Darrow Will Have Charge.

CHICAGO, April 12.—Mayor Edward Dunne today appointed Clarence S. Darrow to have charge of all the traction litigation of the city. Darrow represented the mine workers in the hearings before the commissioners named by President Roosevelt to settle the great strike in the anthracite coal fields.

OUR AMBASSADOR RECEIVED BY CZAR

Mr. Meyer Presents Credentials Amid Scenes of Pomp.

NO MENTION OF WHAT PASSED

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

ST. PETERSBURG, April 12.—Ambassador Meyer this afternoon presented his letters of credence to Emperor Nicholas at Tsarskoe-Selo.

In diplomatic circles the keenest interest is manifested at the first interview between the emperor and the new American ambassador, owing the widespread belief that President Roosevelt has already allowed the information to be conveyed to both belligerents that he stands ready upon their mutual request, to undertake the promotion of peace. It is supposed Mr. Meyer this afternoon delivered a confidential communication to his majesty from President Roosevelt, but so far as is ascertainable the emperor did not discuss the question of peace with the new ambassador.

Mr. Meyer's reception followed the traditional old world pomp and ceremony observed at the court of the Romanoffs. Accompanied by Secretaries Eddy and Bliss and attended by four chamberlains of the court in full uniform, he traveled by a special Imperial train to Tsarskoe-Selo. At the station the party were met by Count Hendrikoff, master of ceremonies, and a number of court officials. Four golden state carriages were in waiting. The coach, occupied by Ambassador Meyer and Baron Korff, was drawn by six white stallions, with the grooms and footmen in the imperial scarlet livery and with outriders on either side.

Arriving at Alexandra palace Baron Fredericks, surrounded by court officials all in blazing uniforms, greeted the party. Ambassador Meyer was first presented to the empress mother, to whom in turn he presented the embassy secretaries. Then preceded by Count Hendrikoff, bearing his staff of office, and a solemn procession of court functuaries, the ambassador passed through salons to the emperor's private apartments. Ambassador Meyer advanced alone to meet the emperor and empress. Their greeting and reception were cordial. The audience lasted 10 or 15 minutes. What passed between the emperor and the ambassador naturally is secret.

The occasion marked a notable departure from the custom of the St. Petersburg court since the days of Minister C. R. Breckenridge, Mr. Meyer wearing no uniform.

WILL CUT RATES ON PANAMA RAILROAD

Coffee Shippers Will Save Several Dollars on Every Ton if It Is Carried Out.

[BY PRIVATE WIRE TO THE GAZETTE.]

WASHINGTON, April 12.—The war department has decided to proclaim the "open door" over the Panama railroad. The department has also decided to reduce the rates over the railroad to the lowest point—consistent with its fixed charges. Engineer Wallace has expressed the opinion that while he could probably handle the material he needs with the present equipment, it would be in the interest of economy and the plan of making the road pay expenses to put down a double track and buy new locomotives and rolling stock at an early day.

It was stated today, officially, that one of the first reductions of rates would be in coffee, that being the article in which the South Americans are most interested. The rate from the west coast of America to New York a ton for coffee is $12 and to London $15. Of this the Panama railroad gets $5 and $6, respectively. It is figured out with such charges as the New York establishment withdrawn and some other expenses cut off, the railroad ought to be satisfied with $1 50 a ton as its share. The commission has, however, not decided on any particular rate yet.

Suspicious Negro Railroaded.

EAST LIVERPOOL, O., April 12.—(Special.)—David Brown, a negro ex-convict, suspected of numerous burglaries, was arested last night and today in default of $2,000 bail was hurried from the city to the county jail, threats of mob violence having been made. He recently served a term in the penitentiary.

BATTLE RUMOR IS NOW DENIED

St Petersburg Admits That a Torpedo Attack May Have Occurred.

WARNING TO FRANCE

Japanese Papers Advise That Nation and Holland That Neutrality Must Be Observed.

THE GERMANS FEEL HILARIOUS

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

ST. PETERSBURG, April 12.—The admiralty has no information in regard to the alleged naval battle in progress off the Anambas islands as reported to a newspaper of Amsterdam, from Batavia and does not credit the possibility of a general naval battle yet.

The officials concede, however, the Japanese may have attempted a torpedo boat attack on a convoy during the night. It is pointed out that there is no cable connecting the Anambas islands and Batavia and that the first news of a fight should come from Singapore unless the Dutch warships are able to communicate with Batavia by wireless telegraphy.

SAIGAN, FRENCH COCHIN-CHINA, April 12.—The French cruiser Descartes and five torpedo boats are cruising off Cape St. James near here. Several Japanese ships are cruising off the coast of Cochin-China for the purpose of preventing the Russians taking coal on board and are making reconnaissances.

LONDON, April 12.—The Associated Press is able to confirm absolutely the statement that the Russian battleships passed Singapore going eastward so that all of Vice Admiral Rojestvensky's squadron is accounted for.

TOKIO, April 12.—Reports received here from Manchuria indicate that the Russians continue concentrating their troops and strengthening the Changchun-Kirin line. Gen. Madridoff's force continues in touch with the extreme Japanese left. Skirmishes are frequent and may possibly develop into an engagement.

CHICAGO, April 12.—A Daily News cable from Kobe says:

"Commenting on the favorable cruise so far eastern waters made by Admiral Rojestvensky's fleet, the Nichi-Nichi-Shimbun warns France and Holland that Japan will not overlook any breach of neutrality on this side of Singapore and the precedent set by the French at Madagascar must not be followed."

All newspaper authorities here are completely confident that Rojestvensky's fleet is no match for that of Togo. The Asahi says that the Russian admiral has put his head into the tiger's mouth. Japanese naval experts warmly praise the Russian fleet's skillful voyage across the Indian ocean. Much curiosity is expressed concerning the manner in which it has been coaled. It is suggested that it may have violated British neutrality. It is thought that Rojestvensky may make his headquarters on the Kwan Tung coast. The Japanese naval movements are being kept strictly secret.

BERLIN, April 12.—(Special Cable.)—The news sent out from Tokyo that it is the intention of the Japanese government to increase Marshal Oyama's army to make it a million strong, has aroused great hilarity in military circles her. It is declared that Japan has completely exhausted her supply of men to the extent that it has been necessary to employ women as policemen. Unless she would send out an army of amazons or half-grown boys Japan cannot reinforce Gen. Oyama to any considerable extent, declare German military men.

VOTED FOR UNION.

Cumberland and Northern Presbyterian Churches Vote to Join Forces for Christian Work.

NASHVILLE, TENN., April 12.—Cumberland Presbyterian headquarters today announced that the proposal for union with the Northern Presbyterian church has received the requisite 58 votes with other presbyteries to hear from. The deciding vote was cast today by the Pennsylvania presbytery. It is said the Northern Presbyterian church is voting for union in the ratio of 10 to 1. It has already settled the question of separate presbyteries for negroes.

The general assemblies of both churches will meet on May 17. The votes will be declared in both assemblies. The union will not be perfected in less than two years.

FAVOR THE SEPARATION OF CHURCH AND STATE

French Chamber of Deputies Passes Article One of Bill Looking to This Consummation.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

PARIS, April 12.—The chamber of deputies today by 422 to 45 votes, adopted article 1 of the bill providing for the separation of church and state as follows:

"The republic assures liberty and conscience and guarantees the free exercise of religion, the only restrictions being those in the interest of public order." All the amendments were rejected.

The majority in favor of article 1 was considered as showing the strength of the supporters of the measure.

MR. FRICK HAS NO LOVE FOR OFFICE

Possesses No Ambition to Enter Politics as a Member of the Cabinet.

HE COULD HEAD THE TREASURY

THE PITTSBURGH GAZETTE BUREAU, Room 10, Postal Building, WASHINGTON, D. C., April 12.

Henry C. Frick of Pittsburgh is not being considered for a place in President Roosevelt's cabinet, nor is there any foundation for the report he is contemplating entering the field of politics. Mr. Frick having declined to be considered for a cabinet position and having refused a place on the Isthmian canal commission, made it plain he had no ambition to hold office and that he would not accept any place within the gift of the president.

If Mr. Frick would accept it, there is not the slightest doubt but he could succeed Leslie M. Shaw as secretary of the treasury. President Roosevelt has a high opinion of the Pittsburgh man and would be glad to have him in the cabinet. The president first met Mr. Frick through Senator Knox, at that time attorney general, and was impressed with his strength and ability. Later Mr. and Mrs. Frick were guests at the White House, and further acquaintance between the president and Mr. Frick resulted in mutual appreciation and esteem.

At the instance of the president, friends of the Pittsburgh man sounded him on the question of entering the cabinet. There was no vacancy at the time, but with the view to securing the services of Mr. Frick in the future he was asked if he would accept a portfolio if it were offered him. Mr. Frick replied he had no ambition whatever to enter the service of the government and would not consider a proposition of the kind. This answer was reported to the president, who expressed regret that Mr. Frick took that view of the matter.

Mr. Frick was the first man in the country to be invited to take a place on the Isthmian canal commission, and he declined this. Scarcely had the deal been closed by which the United States secured possession of the Panama Canal Company's property when President Roosevelt sent a mutual friend to ask him if he would accept a place on the commission. Mr. Frick expressed his gratitude for the consideration shown him, but he adhered to the position he had previously taken and declined the appointment.

There is no reason to believe Mr. Frick has changed his mind on this subject. His business interests are large and require all of his time, and moreover his tastes are more in the direction of business than politics. There has been some discussion as to the eligibility of Mr. Frick to a cabinet position because of his connection with the United States Steel Corporation, a concern which imports goods into the country and which holds government contracts. There is high authority for the view that the fact that he is one of several hundred stockholders in a corporation that does work for the government would not be construed as a breach of the law. However, such discussion is useless in view of Mr. Frick's determination to remain in private life. There is little if any possibility of the administration securing his services.

DEMANDS THE RETURN OF PENSION MONEY

Commissioner Warner Says One Hundred Claims Have Been Erroneously Allowed.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

WASHINGTON, April 12.—Commissioner of Pensions Warner has discovered that in addition to granting pensions under the "old age" order to members of a Pennsylvania militia regiment, the pension bureau has allowed about 100 claims on applications made prior to April 13, 1904, the date on which the order went into effect.

The amounts are trivial in all the cases, but the commissioner will require that they be refunded. He says that in this matter the mistake was due to an error in the construction of the law.

The commissioner has not yet received explanations from all the examiners involved in the Pennsylvania regiment matter and is not therefore prepared to announce his decision. Those heard from admit their error, but plead mitigating circumstances.

SIXTY-SEVEN PASSENGERS INJURED IN TRAIN WRECK

VICKSBURG, MISS., April 12.—The Yazoo & Mississippi Valley passenger train, southbound, was ditched near Hardee station, north of here, early this morning. Reports state that 67 persons were injured. A special train carrying physicians has gone to the scene. It is reported the entire passenger train rolled down an embankment.

MR. FRICK ASKS FOR THE FACTS

Wants to Know All About Business of the Equitable Company.

PROBE SINKS DEEP

Coke King Promises That All Affairs of Equitable Society Shall Be Made Known.

TO PROTECT INFORMANTS

[BY ASSOCIATED PRESS TO THE GAZETTE.]

NEW YORK, April 12.—A complete record of all the financial transactions of the Equitable Life Assurance society, its relations to other corporations and a full list of the society's employes, including all its officers, together with a statement of the salaries and emoluments received by them, is asked of the society's president, James W. Alexander, in a letter sent to him by Henry C. Frick, chairman of the investigating committee, appointed by the directors. The letter to Mr. Alexander was approved at a meeting of the investigating committee at which Messrs. Harriman, Bliss, Ives, Ingalls and Frick were present. In asking for the information, Mr. Frick writes that the committee does not intend to limit its investigation to the questioning of the society's officers, but that separate and independent examinations will be made by the committee and its experts.

The Data Requested.

Among the points on which Mr. Alexander is requested to furnish data are the society's holding or interest in the Mercantile Trust Company of New York; the Equitable Trust Company of New York; the Mercantile Safe Deposit Company of New York; or in any other trust, title or safe deposit company, bank or banking company; the society's leases of its building in this city; its loans to any of its employes, officers, directors or trustees, together with a statement showing who authorized the loan. A statement of all dealings by which any broker sold for or to the society, any stocks, bonds, securities or other property, including all the so-called underwritings by the society, is also asked. A statement as to whether any one connected with the society received compensation or benefit of such stock transaction or underwriting, together with a statement whether any officer, director, trustee or employe has received any money or other thing of value because of the relation with the society is also asked for.

A list of the society's contracts with its leading agents here and abroad, with a compilation to show the practical result to the society from each agency, is asked for, together with a statement showing each item going to make up the total of $7,340,236, mentioned in the report of December 31, 1904, for commissions, advertisement, postage and exchange and how and why each was spent, is also asked for; also each item of a total of $7,179,-318 in the same report for "all other disbursements," and how and why each was spent.

Want to See the Payroll.

A request is made for a statement showing in detail the losses, if any to the society, since January 1, 1900, on any property of any kind purchased by it, giving the names of the persons who sold the same to the society; a record of any transaction by which any officer, director, trustee or employe of the society has irregularly or improperly received money or other valuable thing from the society outside of, and not part of his regular salary; and also a monthly statement from January 1, 1900, showing the cash balances of the society and where the same were, and are deposited, and the terms of each deposit.

In a request for a copy of the society's payroll, Mr. Alexander is asked to give the name of each person in receipt of salary or compensation of any kind from the society and to state the duties performed by each person so paid. He is also asked to set forth any increase in salary to an employe; to give the name of any employe, director, trustee or stockholder who has any business relation with any other corporation; the compensation, direct or indirect, he receives in such manner and the name of the Equitable society officer who authorized the same.

Covers All the Charges.

Information is also asked as to who of the employes are related by blood or marriage to any director or officer of the society. If any such persons are employed in services outside of the offices and ordinary departments and agencies of the society, Mr. Alexander is requested to give their names and state who so employed them.

Mr. Frick writes the foregoing requests are intended to, and the committee thinks, do cover all the charges and counter charges made against any officer, director, trustee or employe of the society, but he adds:

"If any one has any information or knowledge of any other act, matter or thing done, or permitted to be done, by any officer, director, trustee or employe of the society inconsistent with the best interests of the society, or unfair towards any officer, director, trustee or employe thereof, the committee will take up and investigate any such matter on being informed of the same by you or any other officer, director, trustee or employe or stockholder or policyholder."

Will Protect Employes.

Mr. Alexander is requested specifically to give information principally since January 1, 1900, but the committee will go back of that date, if he or any other officer knows of anything requiring investigation. In concluding his letter to Mr. Alexander Mr. Frick said:

"We request you to notify all employes of the society that no one need fear to fully and frankly inform the committee of any facts which he or her knowledge, touching the matter of your business. We will see that no person suffers for giving us information. We

intend to investigate the entire management of the society. The information we receive from you and through you from all the other officers of the society and heads of departments and employes, will be thoroughly analyzed and tested, and in addition we also intend to make separate and independent examinations of our own and by our own experts.

"Our work will be thoroughly done, and any officer or employe of the society can now best serve it by helping us to make the most complete examination possible of its affairs. We request you to send a copy of this letter to all the officers and heads of the departments of the society.

"Promising you such assistance as you may need in gathering up and securing for us the above desired information, and with the added request that if it so happen that you cannot on any one or more points give us the information desired that you will indicate the same to the committee with the suggestions as to how it may be obtained, I remain,

"Very truly yours,
(Signed) "H. C. FRICK,
"Chairman."

HYDE ASKS FOR REMOVAL OF TRUSTEE ALEXANDER

Wants Him Removed from the Charge of His Father's Estate and Control of Equitable Stock.

[By Private Wire to The Gazette.]

NEW YORK, April 12.—Suit will be begun in a few days to remove James W. Alexander as a trustee of the Hyde estate, according to a report in Wall street today. Action will be taken on the ground that in his fight for mutualization of the Equitable Life Assurance society he has sought to deprive the Hyde stock, of which he is trustee, of its voting power, and has stated in a public interview that it is not entitled to any share of the $80,000,000 surplus.

Another feature of the day's developments in the Equitable tangle was the announcement that Wisconsin probably will institute an investigation of the society's affairs. This came on the heels of the statement that Massachusetts and Connecticut contemplate action along the same lines.

Senator Brackett of New York state is credited with having taken the initiative to induce Wisconsin to act. The head of the insurance department in the western state has indicated that he is quite ready to step in and co-operate in the measures being taken to go to the bottom of the dispute now agitating the insurance and financial worlds.

At a recent meeting of the Equitable directors James Hazen Hyde, chief beneficiary of the trust, accused Mr. Alexander of betraying the trust reposed in him by the elder Hyde, founder of the society. Following this announcement came the publication of an offer by Vice President Gage Tarbell of $4 cash on every $1,000 of new business written by the agents between April 1 and June 30. Simultaneously with this, President James W. Alexander issued a call to the 500 managing agents to meet him Tuesday next.

CARNEGIE OPENS HOUSE BUILT BY HIS GIFT

He Is the Guest of Honor of Home Culture Clubs at Northampton, Mass.

[Special Telegram to The Gazette.]

NORTHAMPTON, MASS., April 12.—Andrew Carnegie was the guest of honor and the principal speaker at a public meeting in the Academy of Music tonight to signalize the opening of the Carnegie house, the latest addition to the group of buildings devoted to the work of the Home Culture clubs in this city. The new house, which will be used as an administrative building, was made possible by a gift of $50,000 from Mr. Carnegie. It was formally opened with brief exercises late this afternoon, in the course of which Mrs. Carnegie was presented with a beautiful casket containing a silver key, with which she unlocked the main door.

Mr. Carnegie said in part:

Here is the true, the final aristocracy which can never be displaced—not what a man does for himself, but what he does for others, will be the standard by which man is judged; wherein has he sacrificed self; wherein has he benefited others; what good seed has he planted for posterity? Toward this ideal I think that we are marching more directly in America than in any other land.

Mr. and Mrs. Carnegie were the guests tonight of George W. Cable, and will return to New York tomorrow morning. The Home Culture clubs, formed by Mr. Cable 18 years ago, consist of small groups of persons of all classes, who are brought together socially for courses of reading and study.

Kneeling Man Commits Suicide.

FRANKLIN, PA., April 12.—An unknown man committed suicide at Reno this afternoon, by leaping in front of a work train on the Lake Shore road. Just before the train reached him he knelt on the ties, as if in prayer, and then threw himself under the wheels. Among his possessions were a prayer-book, with the owner's name torn out, a rosary and a note book of the Union Credit Company of Pittsburgh. He was about five feet nine inches in height and weighed 145 pounds.

GREAT LEVITY NEAR THE CLOSE

Legislators Indulge in Merriment, Though Much Business Is Transacted.

FINAL ADJOURNMENT TODAY

[By Associated Press to The Gazette.]

HARRISBURG, April 12.—The Pennsylvania legislature which began its biennial session on January 3 has about completed its work and stands ready to adjourn finally at noon tomorrow. The senate cleared its calendar at the morning session, with the exception of the general appropriation bill, which was passed at the night session. This bill carries an appropriation of $16,300,000, for the expenses of the state government for the next two years. The usual appropriation of $11,000,000 for the public schools, of which $200,000 goes to township high schools, is included in the bill. The house did not clear its calendar of bills until the night session.

The usual scenes incident to the closing of the legislature were enacted in both branches tonight. In the house the spirit of levity prevailed during the day, which Speaker Walton, with great difficulty prevented from breaking out and interfering with the consideration of business. However, at the adjournment of the house late tonight the members indulged in the usual horse play of throwing paper balls, singing and having a good time generally.

The senate with its usual dignity, closed the session decorously. In that body towards 11 o'clock a recess was taken and the senators were served with a buffet luncheon in one of the large committee rooms. Both houses adjourned late tonight until tomorrow morning, when the odds and ends of the legislation will be disposed of and the usual distribution of gifts will be made to the principal officers and employes. Speaker Walton will be presented with a pair of horses and a carriage.

Caucus Named Woods.

A feature of the closing hours tonight was the caucus of the Republican senators who nominated Senator Cyrus E. Woods of Greensburg, Westmoreland county, as their candidate for president pro tem of the senate until the next session of the legislature. The Democrats have nominated Patrick F. Culpin of Scranton. The election will take place before adjournment tomorrow.

The following bills recalled from the governor passed finally in the house:

Providing that if the petition for the improvement of streets under the act of April 23, 1899, has been verified by the affidavit of one or more of the petitioners notice may be given of the passage of the ordinance requiring such improvement and allowing an appeal by any person interested to the court of common pleas, and if such appeal is dismissed or no appeal is taken then all the parties interested shall be estopped from denying that the petition was signed by the requisite number of owners representing the requisite number of feet fronting on the street to be improved.

The following senate bills failed on final passage:

Providing additional penalties for failure or refusal to make report or wilfully make false reports to the state bureau of industrial statistics.

Providing for the appointment of probation officers by the quarter sessions court and defining the duties and powers of such officers.

Authorizing foreign corporations lawfully engaged in the manufacture or production of articles of trade or commerce in Pennsylvania to own land in this state.

Fixing the fee of court criers and tipstaves of courts in judicial districts containing a population of more than 90,000 and less than 150,000 at $180 a year.

The general appropriation bill came over from the senate tonight for concurrence. Before the amendments were acted upon Speaker Walton said that it was the first time in his legislative experience that the general appropriation bill had been passed without a conference committee. After Mr. Creasy had called attention to the increase by the senate in the item for the department of public buildings and grounds, which Mr. Plummer explained was necessary to provide additional employes to take care of the new capitol, the amendments were concurred in. The bill now goes to the governor.

Money for Pittsburgh Hospitals.

The senate today passed a customary concurrent resolution presenting the president pro tem of the senate and the speaker of the house the desks and chairs they had used during the present session. The senate concurred in the house amendment to the senate bill reducing the appropriation to the Historical Society of Pennsylvania from $150,000 to $100,000. The senate bill making an appropriation of $16,000 to the Elk county general hospital which was recalled from the governor for amendment was passed finally.

AUTOMOBILE BILL PASSES FINALLY

Speed Limited to a Mile in Six Minutes Within Cities and Boroughs.

STATE POLICE IN FAVOR

Room 10, Postal Building.
HARRISBURG, PA., April 12.

The Grim automobile bill passed the house finally today with practically no opposition, in the same shape as it had passed the senate. The house yesterday amended it to permit automobile owners in Philadelphia to obtain licenses from the bureau of boiler inspectors. This amendment was stricken out today on third reading, and the bill passed finally later in the day. The speed is placed at a mile in six minutes outside these limits.

The bill to create a state police department which has been hanging in the balance for the last two weeks, was passed finally by the house today, by a vote of 156 to 28. Mr. McClain of Lancaster, in support of the bill, read that portion of the governor's message recommending the abolition of the coal and iron police. While the bill does not carry out the governor's recommendations, except that the house amendment provides that the state police "are intended as far as possible to take the place of the police now appointed at the request of the various corporations," McClain said that it was a step in that direction.

Could Vote for Pennypacker.

Mr. Creasy, floor leader of the Democrats, said: "We have an honest governor, a man who will carry out the provisions of this bill. I do not think he will appoint a single coal and iron policeman. But his term is ending and we cannot tell what his successors will do."

"If under the constitution our present governor could be re-elected, would the gentleman from Columbia vote for him?" asked Mr. Cooper of Delaware.

"If he could be re-elected," said Mr. Creasy, "who is the Democratic leader; "I could with good grace vote for him."

The state police force is to consist of a superintendent at $3,000 per annum, four captains at $1,500 each, four lieutenants at $1,200 each, 20 sergeants at $1,000 each and 200 men divided into four companies, at $720 each. The bill carries an appropriation of $425,000.

Outbursts of indignation from Philadelphia members, over Chief Clerk Garvin's alleged failure to record enough votes for a bill created a scene at the morning session. The trouble arose over a bill to limit the amount of interest on loans and on goods pledged for security to 6 per cent. This bill is aimed at pawnbrokers and makes its appearance at every session of the legislature. Heretofore it has been attempted at the committee stage or left on the postponed calendar, but today it reached final passage in the house.

Made Demand on Speaker.

When the roll was called there was considerable horse play indulged in by the members incidental to the close of the session. Mr. Morris of Philadelphia had spoken on the bill and told the members that it was in the interest of poor people.

Speaker Walton received the roll and had just announced, "The yeas are 99 and——" a roar from the Philadelphia end of the house drowned the speaker's voice.

"There were more than 99 votes cast for this bill," shouted Mr. Call of Philadelphia, when order had been restored. "We want fair play and I demand a verification of the roll. Several of us kept tally and we know it passed."

"The roll will be verified," ordered the speaker.

As the chief clerk read the names off, members arose to catch the eye of the speaker. When the roll was finished over 30 were on their feet clamoring for recognition.

"I voted for that bill and I am not recorded," they seemed to shout at once. One at a time the members were permitted to record their vote. When there were 140 motors claimants for recognition another verification of the roll was demanded and this brought a dozen of other members to their feet, who declared that they had voted for the bill. Their votes were allowed. The speaker then announced that the yeas were 146 and the nays none.

Was Too Much Noise.

Then Mr. Hays of Butler tried to offer a resolution to prohibit Mr. Garvin from making any more rolls. Objections came from the Philadelphia corner and the resolution could not be considered. The chief clerk afterward said there was so much noise on the floor of the house that it was impossible to hear responses from many of the members.

The house today defeated by a vote of 65 to 62 a bill providing "for the appointment of probation officers by the court of quarter sessions of the peace of this commonwealth, and defining the duties and powers of such officers."

"A simple reading of this bill," said Mr. Harman of Columbia, who led the fight against the measure, "shows that it provides that a convicted ballot box stuffer, thug or a gambler, may be turned over to a probation officer who shall serve without pay. This bill is here to keep someone out of jail, who will get there if this bill does not pass. Judges now have the authority to suspend sentences if circumstances warrant such a suspension."

"This bill is not in the interest of ballot box stuffers or of any person of that character," retorted Mr. Eaton of Philadelphia. "It applies to children and was asked for by a charitable organization and was suggested by judges of the courts."

Mr. Harman replied "that if the measure applied to the juvenile court, it would be all right, but there is not a word in the bill relating to children or to the court in which children are tried. Under its provisions anybody convicted of a misdemeanor could be permitted to go free."

"I am amazed that a reputable member of the bar would charge judges with entering into a conspiracy to protect ballot box stuffers," said Mr. Eaton.

Attorney-General's Fees Abolished.

After lying on the postponed calendar for several weeks the bill abolishing the fees of the attorney general and fixing his salary at $12,000, was taken up today by the house of representatives, and passed by a vote of 140 to 28.

Mr. Hitchcock of Tioga moved to go into committee of the whole for the purpose of amending the bill to reduce the salary item to $10,000. Mr. Hitchcock said that the attorney general is not required to give his entire time to the commonwealth, he can maintain his private practice and make thousands of dollars a year thereby. He did not think it fair to give the attorney general a larger salary than that paid the governor.

Mr. Fusey cited the great labor connected with the legal department of the state and the necessity of extra labor which is entailed upon the lawyer who takes the position of attorney general.

The Hitchcock motion to go into committee of the whole was defeated by an overwhelming vote.

Attorney General Carson receives $3,500 a year and is allowed to collect a maximum of $7,000 in fees. He also receives $500 as a member of the pardon board. This rule has prevailed for years. The new bill, if signed by the governor, will not become effective until the end of the Pennypacker administration.

PLANS COMPLETE FOR RIVER TRIP

Chairman Burton Requests the Committee to Reach Pittsburgh by May 8.

TO HAVE DEFINITE SCHEDULE

The Pittsburgh Gazette Bureau.
Room 10, Postal Building.
WASHINGTON, D. C., April 12.

Representative Burton, chairman of the house committee on rivers and harbors, who returned to Washington today, has notified the members of the committee that they are to rendezvous at Pittsburgh not later than May 9 for the trip down the Ohio river to Cairo. The party will leave Pittsburgh early in the morning of the 10th, on the steamer "Queen City, as guests of the Ohio Valley Improvement Association, of which Col. John L. Vance of Gallipolis is president. Mr. Burton requests that the member of the committee plan to reach Pittsburgh by May 8, if possible, in order that they may have ample time to investigate local river conditions there.

It is expected that the trip down the Ohio will occupy at least eight days, no traveling being done at night, in order that the committee may inspect every mile of the river and become acquainted with the canalization project. Several receptions and dinners are planned for the trip, notably at Pittsburgh on the evening of the 9th, at Wheeling on the 10th, at Parkersburg on the 11th, at Portsmouth on the 12th, at Cincinnati on the 13th and at Louisville on the 14th.

The trip will end at Cairo on May 17. Those who desire can return on the boat from Cairo to Cincinnati, and it is now intended that the return trip shall begin on the 17th, and will occupy 36 hours.

Chairman Burton expects to have a definite schedule, showing as nearly as possible the exact hours of arriving at and departing from all points along the river, within a few days. In addition to the members of the committee and their wives, there will be in the party several of the officers and members of the Ohio Valley Improvement Association and newspaper representatives.

GOV. PENNYPACKER VETOES RAILROAD FRANCHISE BILL

He Defeats the Effort to Save Company's Charters Where Lines Are Not in Operation.

[By Associated Press to The Gazette.]

HARRISBURG, April 12.—Gov. Pennypacker today vetoed the bill entitled "An act in relation to railroads under lease and saving their charters and franchises from forfeiture or impairment in case of failure of their lessees to maintain and operate any portion of their lines." The governor in his veto says:

This bill provides "that whenever any railroad belonging to a company organized under any general or special law of this commonwealth is under lease to another railroad company, no failure on the part of the lessee to maintain or operate any portion of said railroad shall work a forfeiture or any impairment of the chartered rights or franchises of the lessee, provided that this act shall not apply to passenger railway companies." The act of February 15, 1849, section 19, provides that "If, after completion, the said railroad shall be suffered to go into decay and be impassable for the term of two years, then their charters shall be null and void." In most special acts of assembly creating charters for the construction of railroads there are similar provisions.

"A charter is in the nature of a contract between the state and the company which is so incorporated: it is quite clear that no failure upon the part of the lessee of the corporation, which is no party to the contract, can in any way affect such contract. The forfeiture, if it arose, would be the consequence of the failure upon the part of the lessee, the corporation, and not of the lessee. No doubt in most cases covenants are introduced into the lease to protect the lessor against the consequences of neglect or failure upon the part of the lessee. With these covenants, however, the state has nothing to do.

Apart from this technical view of the bill which would make the legislation unnecessary, the propriety of the policy of the bill may well be questioned. Since a large proportion of the railroads constructed are no longer in the possession of the original companies, but have been leased to greater corporations, the result would be in this indirect manner to repeal all the laws, or most of them, both general and special, which provide for a forfeiture in the abandonment of the road, a general thing, when railroads when constructed through a considerable section of the country, their presence is an inconvenience to other land owners, and the law which provides that when abandoned their charters shall be forfeited seems to be wise.

DESPERADO CAPTURED AFTER EXCITING CHASE

Negro Fugitive Led a McKees Rocks Posse Two Miles Across the Country Before He Surrendered.

A negro desperado, who is accused of being the would-be assassin of the mayor of Butler, and who is charged with having wounded a man in Sheraden more than a year ago, was arrested in McKees Rocks last night after a posse of more than a score of officers and citizens had chased him two miles. During this time the fugitive sought escape by boarding a freight train, and finally, when cornered, played the Israel Putnam act by sliding down a water main over a 60-foot precipice.

The negro arrived in McKees Rocks at 6 o'clock last night and divulged his identity to a crowd in a saloon. Constable Andrew Armstrong and Chief of Police Thomas Grogan were notified and placed the negro under arrest. The prisoner promised to go peaceably to the lockup, but suddenly threw his overcoat over the officer's head and sprang upon a freight train. Grogan boarded the rear caboose and followed by jumping from car to car. The negro sprang off, ran into the house of David Spece, got a shotgun and struck Joseph Wilcaugh, one of his pursuers, a terrific blow on the head. He was chased two miles toward Sheraden and was cornered by William DeJohn while sliding down the water pipe into an old stone quarry. He will be arraigned for a hearing this morning.

PRESIDENT IN AT THE FINISH

Stays With the Hounds in a Fifteen-Mile Cross-Country Wolf Chase.

GETS HIS COLORADO LICENSE

[By Associated Press to The Gazette.]

FREDERICK, OKLA., April 12.—This has been an ideal day for President Roosevelt and his party of hunters in the big pasture. The weather has been cool and cloudy. The party goes out at 6:30 o'clock each morning and returns to camp about 11 o'clock for dinner. Fresh horses are saddled by attendants and a fresh start is made at 1:30 o'clock in the afternoon. One of the diversions of the camp was a series of foot races in which the president participated.

Last night a raccoon was caught in Deep Red creek, and it is now in camp as a live trophy of the chase.

In one of the runs a wolf was chased over the hills and across creeks and through timber for 10 miles. The pace was fast, and when the wolf was captured, there were only four of the party within sight of the animal: Bob Burnett, Guy Waggoner and John Abernathy, three old time cowboys, and President Roosevelt. About 15 dogs are taken out at a time, and the remainder of the pack is kept at camp. Yelps can be heard for miles.

DENVER, COL., April 12.—Jesse McDonald, accompanied by a party of National Guardsmen and officers of the regular army, intends to go to Trinidad in order to welcome President Roosevelt to Colorado. Gov. McDonald will carry with him the hunting license which has been issued by the game commissioner to the President.

The party intends to leave Denver Thursday night, arriving at Trinidad Friday morning. There they will join the presidential party and accompany the president back to Colorado Springs. The special permit which Governor McDonald will present to the President has been engrossed and encased in a leather covering. It will give the chief executive carte blanche.

WOMAN'S TRAGIC ACT.

Only one shot took effect, but the woman is in a dying condition late tonight, and physicians claim she cannot recover. The cause is said to be the unhappy marriage of her 16-year-old daughter to a young man named McCully a short time ago.

VERNER DOES NOT TALK HARMONY

Says He Knows No Reason Why Citizens Should Not Fuse With Democrats.

CITIZENS HAVE NEW SCHEME

Murry A. Verner returned from Harrisburg last night with a denial that he had held harmony conferences at the state capital with former State Senator Flinn, City Chairman Leslie and Senator Penrose. He also declared that no negotiations had been opened to obtain harmony and asserted it was not true that the Citizens leaders had been notified by Senator Penrose that the state Republican candidates would not be permitted to go on a fusion ticket in Allegheny county this fall.

"There is nothing in that," he said. "Senator Penrose is anxious to get all the votes he can for the state ticket, no matter where the votes come from, and he is not going to refuse to allow the state candidates to go on the fusion ticket, providing there is fusion this fall."

"Will there be fusion again this fall between the Citizens and Democrats?"

"I don't see why there should not be fusion," was Mr. Verner's rather evasive reply.

"Is there any prospect for harmony of Republicans with the Citizens?"

No Harmony Proposition.

"There are no negotiations for harmony pending and no proposition has been submitted to us by the Republicans."

Mr. Verner would not say positively that the Citizens would put a ticket in the field this fall. The Democrats are becoming restless at the attitude of the Citizens and their failure to declare themselves on the question of fusion. This is said to be largely responsible for the mutterings by the number of Democratic leaders against a Greater Pittsburgh. With the two cities united and talk of harmony in the Republican ranks, the Democrats fear not only that they will lose what political patronage they now hold, but that their influence as an organization will be wholly gone.

Director James W. Clark said yesterday that he did not think harmony could be obtained unless it included an understanding on the mayoralty. It is reported that County Controller Cunningham, Recorder O'Neil and Commissioner Evans would be nominated by the Republicans as one of the conditions of harmony, but this is only rumor. It is stated by Republicans, who claim to know what is going on, that no such proposition as this has been made and that discussions of harmony have not gone so far as to name any candidates for county offices this fall or a candidate for mayor next spring.

Talking of New State Party.

Notwithstanding Mr. Verner's declaration that Senator Penrose, as the Republican state chairman, will not permit the state Republican candidates to go on the local fusion ticket, the local Republican leaders insist that this is a fact, as evidenced last year, when, at the instance of Senator Penrose, the state candidates withdrew their names from independent tickets in several counties.

There were rumors yesterday that if the local Citizens could not obtain a favorable harmony arrangement with the Republicans they would fuse on country offices with the Democrats, and unite with so-called independent Republicans in other parts of the state, to frame a state ticket with Republican candidates or the Wanamaker or Union party type.

The conventions for the election of delegates to the Republican state convention will be held next Tuesday as follows: First and Second districts at 7:30 p. m., in the Allegheny City Republican headquarters; Seventh district, 11 a. m., in Allegheny common council chamber; Third district, select council chamber, Pittsburgh, 7:30 p. m.; Fourth district, select council chamber, Pittsburgh, 8 p. m.; Fifth district, common council chamber, Pittsburgh, 8 p. m. The arrangements for the Eighth district convention have not been completed.

A. H. Leslie will be re-elected superintendent of the county workhouse today for another year, there being no opposition to him. The board of managers meet today to hold the annual election.

ALL BUT CHAMBER OF COMMERCE WILL JOIN

When the committee which is arranging for the joint action of all local commercial organizations meets next Wednesday evening, it is expected that a plan will have been formulated acceptable to all the bodies which have considered it. A statement by George H. Anderson of the chamber of commerce yesterday indicates that he will not consent to the chamber joining the organization. General Manager J. W. Wardrop of the Merchants and Manufacturers' association, is chairman of the committee.

Elks Will Entertain Tonight.

The largest stag social ever given by Pittsburgh lodge of Elks No. 11, will be held tonight at the club house, Fifth avenue and Jumonville street, at 8 o'clock. This is the first stag social that has been held at No. 11 for over a year. There will be seats for 500 people. The vaudeville performance, music, lunch, etc., will be free, but to gain admission members are requested to bring their membership cards. The committee in charge includes Frank H. McCarthy, Curtis S. Mitchell, W. W. Robinson, H. J. Spuhler and Saul Susman.

Mosko Goes Insane from Joy.

When John Mosko was confronted by his wife at the Baltimore & Ohio station in McKeesport yesterday he became temporarily insane. He had worked at the plant of the National Tube company for six years, managing to save enough money to send for Mrs. Mosko, whom he had not seen since leaving the old country. When Mrs. Mosko stepped from the train her husband ardently embraced her and was then suddenly bereft of reason. He attacked a policeman who had tried to quiet him, and finally had to be taken to the police station.

Pure Food Show Nearly Ready.

Considerable progress was made yesterday at Old City hall in the preparation for the pure food show, which opens on Monday. Secretary H. C. McKelvey of the Retail Grocers' association, said last night that everything would be in readiness by Saturday night, and the exhibits will be ready for the opening Monday afternoon. The "hustling committee" of the association was out again yesterday, and closed up contracts for the last of the spaces to be devoted to exhibits.

Mrs. Sunday Is Under Arrest.

Mrs. Agnes Sunday, the woman whose attempted arrest Sunday afternoon caused a riot at Schoenville, in which four persons were injured and 15 policemen and detectives were stoned out of the town, was arrested yesterday afternoon by Constable George Shortman. Shortman went into Schoenville alone and served a warrant on the woman for disorderly conduct and inciting a riot. He also arrested Mike Dencko on a charge of keeping a speakeasy.

Pittsburgh College Examinations.

The results of the third term examination of the Pittsburgh College of the Holy Ghost announced yesterday. The following students obtained first place in their respective classes: E. M. Morales, C. F. Fuhrenbach, F. J. Toohill, M. J. Friedl, S. J. Lenix, J. H. Layton, C. A. Mayer, J. H. McGraw, S. G. McLaughlin, G. P. Angel, F. J. Lefevre, J. Sonnefeld and G. Kraus.

To Regulate Cab Fares.

Because of the exorbitant charges made by cabmen, the department of public safety is having an ordinance prepared to regulate the charges of cabmen. Cab drivers will be licensed, and if reported to the police department for charging exorbitant fares, the drivers will not be permitted to drive in the city.

Work Is to Start Soon.

Postmaster William V. Campbell and his assistant, Charles Walsh of McKeesport, returned yesterday from Washington, D. C., and announced that within 30 days work will be commenced on the new federal building at Eighth and Walnut streets, McKeesport. It is expected to have the new structure ready for occupancy in January 1907.

HORSE VS. TROLLEY UP TO CALLERY

President of Pittsburgh Railways Company Is to Decide Peculiar Question.

WAR IN STANTON AVENUE

J. Dawson Callery, president of the Pittsburgh Railways Company, has taken two days to decide whether he shall favor his hobby or the big corporation of which he is the executive head. Mr. Callery's hobby is the horse, and if he decides against the corporation, there will be no trolley lines built on Stanton avenue between North St. Clair street and Euclid avenue. If his hobby gets the worst of it, there will be railway tracks on Stanton within the next fortnight, and every resident of that section of the street will be in a bad humor. Mr. Callery has not decided, but there is little doubt but that the trolley line will be built.

Some time ago the Pittsburgh Railways Company secured a franchise from city councils to build a street car line along the western portion of Stanton avenue. This week they commenced the work, intending to connect the North Highland avenue district with Morningside and Butler street extension. The people of Morningside and the Pittsburgh board of trade have presented several petitions to the traction company for a cross-town system connecting Morningside district with the business end of the East End, and the Stanton avenue line is the first effort to complete the long-wished-for system.

When the residents of Stanton avenue saw the traction company's men tearing up the asphalt they rushed to city hall and held an indignation meeting in the city clerk's office. They found that they were powerless to enter successful legal proceedings to preserve Stanton avenue, and then went to work on the tender sympathies of Mr. Callery. They pictured how the speedy horses would mourn over the proposed desecration of Stanton avenue, over which so many fine brushes had been made.

"Haven't you some fine horses?" they asked Mr. Callery.

"The finest Kentucky produces," replied the head of the traction company with pride.

"Then please don't dig up Stanton avenue and desecrate it with trolley cars."

Last night the Stanton avenue indignation committee held a meeting at the residence of William Campbell. It was attended by Alexander Dempster, Capt. W. S. Brown and half a score of other residents of the street. They debated the whole question and decided to make another appeal to Mr. Callery. They were hopeful of success and prophesied that he would not build the line on Stanton avenue eastward beyond St. Clair street.

"I am still considering," said Mr. Callery. "The question is largely in the hands of the people themselves. The people of Morningside and the business section of the East End have made repeated appeals for a cross-town line. This is now what we propose to build."

The people of Morningside will insist on the completion of the new line and many houses have been built and sold in that region with the understanding that the crosstown line would be completed. The chances are that Mr. Callery will train his hobby in another street.

Robert G. Snyder, who has been first sergeant of Company A, Fourteenth regiment, was unanimously elected second lieutenant of the company last evening.

The executive board of the Pittsburgh district of the United Mine Workers will meet Tuesday. Plans will be formulated to organize the Irwin field. John Mitchell, president of the organization, and Thomas Lewis, general secretary, are expected to attend the meeting.

Fire in New Skyscraper.

Smoke pouring from the seventh-floor windows of the new Diamond National bank building caused considerable excitement in lower Fifth avenue shortly after noon yesterday. The fire started from some oil which had been left standing near a register. The damage was trifling.

MOTHER RACED WITH TRAIN TO SAVE INFANT'S LIFE

Mary Dubuak Is Struck by Engine Before Parent's Eyes and Dies in Her Arms.

Mary Dubuak, aged 3, was struck by a train on the Baltimore & Ohio railroad at Brady street yesterday afternoon and died 10 minutes later in her mother's arms. The mother, Mrs. Mary Dubuak of 2340 Forbes street, went to the railroad tracks to gather coal and left the child at home. A few minutes later the woman heard the engine whistle. She looked up and saw the infant had followed her and was on the tracks about 100 feet from her. She raced with the train toward the child. The engine struck the girl and tossed her to one side. The mother picked her up and the child died in her arms.

Frederick Goldthwait, aged 45, of South Dayton, N. Y., was found dead in his room at the St. James hotel, First and Smithfield streets, yesterday afternoon. It is supposed he died from shock while injecting morphine into his breast with a hypodermic syringe. He went to the hotel Tuesday night and registered as G. A. Graham of Buffalo. At 5 o'clock yesterday afternoon he was found dead in the bed. The needle from the syringe was broken off in his breast and by his side were found two bottles and a small box of morphine. His body and effects were taken to the morgue and papers were found to indicate he was Frederick Goldthwait and that he was a member of the Brotherhood of Locomotive Firemen. A membership card of Holbrook lodge of McKees Rocks was among his effects, and a letter supposed to be from his mother, Mrs. Clara Goldthwait of South Dayton.

The coroner was notified last night of the drowning of a 7-year-old Arabian boy in the Monongahela river at West Elizabet. The boy was playing in a skiff tied to the bank and fell into the water. His body was recovered and taken to his home. His parents cannot speak English and the deputy coroner was unable to learn his name.

Joseph Bell, a negro, died at the workhouse yesterday from consumption. He was serving a sentence of one year for keeping a disorderly house and was admitted to the institution last July. He was 25 years old and lived in Mercer county.

The Astonishing Fact

That here in Allegheny County — an unusually rich community — out of 5,164 adults who died last year, only 230 left estates of more than $1,000, and 4,559 left no estate at all, is a strong argument in favor of Life Assurance—In no other way can the average man make adequate provision for his family.

A Bit of Sunshine, a Bracing Air, an Easter Opening.

Could three attributes of what makes a splendid day conspire more favorably towards inspiring people to dance attendance upon Fashion?

A great gathering here yesterday, and none but fairest encomiums—some of them running to flattery.

Even men are talking of the display, for we have it from a lady who lunched yesterday at a favorite noonday resort, that a gentleman said to her, "Have you seen Horne's Easter decorations? They are exquisite."

The latchkey is out any time between this and our Saturday closing hour. There never was a prettier sight.

Handsome Tailor Suits for $25.00.

$35.00 to $65.00 Values.

The heavy selling of the past few weeks has left on our hands broken lines in many of our better numbers which for several reasons we are unable to re-order owing to difficulty in matching the material or trimmings. At this time of the year we don't feel like carrying any broken lines and to hurry them out make the above most substantial concessions in prices.

There are broadcloths, cheviots and serges, novelty cloths and other leading fabrics for Spring wear. There are too many styles to admit of description, but we are sure they are styles that will please, as proven by the fact that their counterparts were the first to find new owners.

Ready tomorrow morning in the Suit Section, second floor, west.

Skirts in the Better Styles of Spring, $5.

Worth $8.50 to $15.00.

We have about seventy-five pretty skirts, made up of a half dozen or so of a kind, which we will put on sale today for $5.00 each. They are worth from $8.50 to $15.00. They are representative of the better styles designed to wear this Spring.

The materials employed in their making are cheviots, broadcloths, serges, a few panamas and some worsteds. The colors are blue, black, brown and mixtures.

In conclusion we will say that there are only seventy-five, that they will make quick selling, that you had best be on hand early if you would have good choice.

The size range will be found right.

Do You Buy Your Boy's Clothes Here?

If you do not, then it is simply because you have never given us a trial. Not having given us a trial you are fain to believe that all advertising is alike and that our clothing is no better than others. In this assumption, however, you err. Those who have bought one suit or topcoat for their boys here have always come back, and keep on coming.

There is the best proof we can offer you of the superiority of the clothing we sell. Another proof is the comment you hear from people who deal with us. Ask your friends what they think of Horne's clothing.

Study This Point.

If you haven't bought the Spring outfit for your son, before doing so visit our Clothing Department, and while you are looking at the suits and overcoats (which will bear the most minute investigation) give an eye also to the prices that we quote. You will find them lower every time.

The J. H. Special at $5.00—double-breasted or Norfolk style, all-wool, sewed through and through with silk—trousers have double seats and knees.

Russian Blouse Suits for the youngsters of 2½ to 7 years—Eton and military styles—unlined blouses, cut perfectly plain, not a jot of gingerbread about them.

Reefers of the latest cut and material, at $5.00, $6.00, $7.00 and $8.00. Sizes 2½ to 12 years. Scarlet cloths, serges and homespuns.

Topcoats of Covert, $5.00, $6.00, $7.50 and $10.00—sizes 7 to 16 years.

Trousers, 50c, 75c, $1.00, $1.25 and $1.50.

Boys' Wash Suits.

The boy who wears wash suits, and most boys do in warm weather, needs at least a half dozen suits to keep him going. Therefore, it is only the part of economy to buy them where prices are most reasonable. In our Boys' Department, second floor, East.

At $1.00—Wash suits in dark blues and tans, white pique shields, plain bloomer trousers—sizes 5 to 10 years.

At $1.50 and $1.75 Wash Suits of linen—tans, blues, oxfords and a very good assortment of whites. In the Ruslan suits, sizes run from 2½ to 6; in the Blouse suits, sizes run from 5 to 10 years.

At $3.75 we are showing a special wash suit, Norfolk style, of white, one pair of bloomer and one pair of straight trousers. Sizes 7 to 16 years.

Boys' Wash Waists.

To a great extent a boy's appearance depends upon the waists he wears. Candidly, don't you think some of the waists made at home are a bit exaggerated as to collar and sometimes a trifle off as to fit?

And why should a boy wear unsatisfactory waists when good waists, made by the foremost waist makers in the country, can be purchased for such prices as these—

White Blouses, madras, cheviots and linens are used in these and the prices are $1.00, $1.25, $1.50, $1.75, $2.00. Sizes from 6 to 15 years.

Colored Blouses, either pleated or plain, of madras, cheviot or gingham, $1.00, $1.25, $1.50, $2.00. Sizes 6 to 15 years.

Thursday, April 13, 1905.

An ordinance is proposed for the regulation of cab fares in this city. It is a late recognition of a subject that should have been taken up and acted upon years ago. In the matter of cabs, Pittsburgh has not been well served, and it has been overcharged. Two years ago The Gazette called attention to this matter and presented to the public comparative data gathered from other cities and towns throughout the country. It is high time, indeed, that this city shall establish a schedule of cab fares and enforce regulations for the service.

The campaign of Senator Blackburn of Kentucky for return to congress is to be contested by Judge Paynter of the court of appeals. In reply to the challenge of Senator Blackburn that he meet him in debate, the judge wrote that he was too busy with court work, and besides he did not think it wise for two Democrats to engage in such a lively struggle. It would be much more dignified to let the party know that both were candidates, so its members might make a choice between them. Blackburn has begun touring the state and will have plenty of time to deal with the voters before the election of the legislature next fall.

Those who hope peace between Japan and Russia may be secured through the mediation of this country take encouragement from the fact that when Ambassador Meyer presented his credentials to the czar he held a confidential audience with him. It is suggested he might have notified the Russian ruler of President Roosevelt's willingness to serve as mediator if both countries should ask it. It is hardly probable any such significant conversation took place. Russia has long been aware it could count upon America's good offices if it desired to avail itself of them. The introduction of the ambassador was formal, and if he had anything important to communicate it would be likely to follow at a later date if at all.

Tate county, Mississippi, has been the scene of a most remarkable crime, in which the high sheriff was the victim. He was assassinated in the discharge of his official duties, resisting a mob bent upon taking one of his prisoners. In this case appeared the unusual feature that the mob did not intend to lynch the confined murderer, but desired to liberate him. Sheriff Poag added the second unusual feature of a Mississippi sheriff defending the jail at the cost of his life. The usual feature is supplied by the posse of enraged citizens in pursuit of the eight assassins, for the declaration is openly made that if the men are caught they will be lynched without mercy. Mississippi violence has many forms and continues to afford proof that the lynching habit is not a civilizing influence.

As an echo of the General Slocum disaster, the order has gone out that all life preservers carried by steamships or boats within American jurisdiction shall be made either of solid or compressed cork. This will compel a general refitting of vessels that have been carrying preservers made of cork shavings and other materials. It will have a tendency, also, to shut out the manufacturers who insert cast iron in their devices to bring them up to weight requirements. This reform will be welcomed by the public, but it will not be entirely satisfied until there is specific law for the punishment of all persons who make or employ alleged life savers that cannot serve the purpose for which they are ostensibly designed.

Those who have believed that the use of beer and spirits was on the increase in England will be interested in the official statement made by the chancellor of the exchequer on budget day that there was less consumed during 1304 than in any 12 months for 15 years. The chancellor inferred from this that the habits of the people were changing, for the time they formerly spent in the public houses was now devoted to excursions and outdoor recreation. This will not only encourage temperance people, who believe that spirits should be avoided whatever the temptation, but it will be especially satisfactory to those interested in the movements to provide spaces where people may enjoy the fresh air and the measures to furnish places of amusement more attractive than the saloons.

End of Legislature.

Today will witness the final adjournment of the regular session of the One Hundred and Sixteenth General Assembly of Pennsylvania, nearly 15 weeks from its convening. It has made a record that may be compared favorably with a majority of its predecessors, and its final account has been materially improved by the firm hand of Gov. Pennypacker. Little, if any, wrong legislation will find its way to the statute books of the commonwealth.

By far the greater part of the sins of this legislature have been those of omission. A number of good bills have failed to pass, several good subjects have been vetoed because the bills were badly drawn, and some were totally neglected. The Gazette has already pointed out these shortcomings and needs not to again enumerate the matters which should have been attended to.

It will require several days to sift out the work of the last hours, and the governor will have 30 days in which to inspect, approve and disapprove the bills that have been thrust upon him this week. A large proportion of these are appropriations for state institutions and quasi-public charities, though there are also a good many of general character. This community is more interested in the Greater Pittsburgh act than any others. Gov. Pennypacker will hear objections to it next Monday. Considerable interest also attaches to the Goehring bill affecting the annexation of boroughs, and to the bill providing for election of councilmen-at-large. Philadelphia, on the other hand, will be most concerned about the bills proposing election of department heads by councils. But even now it is certain that when the record is finally made up the session of 1905 will pass into history as a creditable one, wholly disappointing to those who predicted in advance it was to be a carnival of corruption.

Letter of Inquiry.

Another chapter in the Equitable society disturbance is marked by the letter of Henry C. Frick, chairman of the directors' committee on investigation, directed to President James W. Alexander. The schedule of subjects on which information is desired by the committee is most comprehensive. It suggests a probing that will go to the bottom, not merely in one spot, but in many. If there has been any wrong in the conduct of any affairs of the society it ought to be disclosed by truthful answers to the questions propounded.

It may not be assumed at this juncture that the committee is ranged on the side of President Alexander or of Vice President Hyde. Its inquiries do not indicate partisan bias. Yet it must be obvious that complete information on all the points covered may be sufficient to condemn either or both of those gentlemen, or to vindicate them from all charges. The only criticism that can be passed upon this phase of the proceedings is that members of the board of directors, including those on the committee, might have served the society by obtaining precisely such information long before the official squabble began. Possibly, though, some of them did.

Coolie Labor on Canal.

It has been decided by the secretary of war and the Panama canal commission to employ Chinese and Japanese laborers on the work. The start will be made with 2,000 of each. If they prove satisfactory and no complications occur, the number will be increased as needed. These coolies are expected to stand the Panama climate better than white or black laborers, since they are more temperate in eating and drinking than either. The better class of Japanese who are in the Manchurian armies have shown magnificent physical endurance under adverse weather conditions and have maintained good health.

There are some legal questions to be decided by the attorney general as to the right of the government to import Chinese into Panama, and as to whether they are to be limited to eight hours' work for a day. The commission is, apparently, satisfied the decisions will be favorable. Unquestionably the employment of Chinese and Japanese is the easiest and most practical solution of the canal labor problem. There is no good reason why American workmen should object. They have better employment at home and it would not be feasible to marshal the immigrants now pouring into this country for that task. The more is the pity.

An Awful Charge.

Kansas has come to the front again. A telegram from Topeka informs an interested public the Indian girls of Haskell institute have been horribly shocked by the language used by the white girls of the Washburn basketball team. During a game at Lawrence, the site of Kansas State university, the Indian girls allege the Washburn maidens used real swear words, which so shocked their antagonists they could not do their best in the game. As an outcome it is probable the Indian ladies will refuse to play again with Washburn.

Had this story come from anywhere but Kansas, it would not be so remarkable. It is the boast of Kansas that it leads the procession of civilization. Its women are moulders of public opinion, leaders of political thought and they exercise the voting franchise to confine the licensed sale of liquor to "rum-soaked Missouri." Yet here is a charge that enlightened college girls of the Sunflower state use such language as shocks the feminine representatives of a remnant of the aboriginal savages who inhabited Kansas before it began to bleed wholesale.

Basketball, though not altogether in the same class as football, is quite a strenuous pastime. It calls for the exertion of considerable physical energy. It is admitted by the Indian maidens that the exigencies of the play might warrant an occasional "consarn," or "doggone"—expressions they have been taught to eschew as being not altogether ladylike—but they protest they cannot longer play with young women of any color who use the big D, and especially who use it with emphasis. That is what they say the Washburn girls did, and they think it was awful.

This is surely a matter for the prayerful consideration of Kansas men and matrons. Their sacred soil was first baptized by the blood of Indian warriors and their victims. The warfare went on until most of the Indians were good in the happy hunting grounds and the superior race was in possession of the fertile corn fields. Yet here is a lingering remnant of those former Kansans come with a claim of greater refinement that must cause either a burst of indignation or a blush of shame. In either case the men and women of Kansas need to get busy with a vindication, or with the approved family slipper.

Cut in Price of Oil.

Another cut of 3 cents a barrel was made in the price of Pennsylvania oil yesterday, with corresponding reductions upon other grades, including the oils of Kansas and the territories. This cut followed a shading of the refined oil quotation at New York, as did the previous reductions that have been such a constant feature of the market for more than a year.

It is not difficult to perceive the reasons for these changes adverse to the producer of crude. First is the foreign competition in the export markets which has been growing in intensity for nearly two years. Second is the entrance of Texas into the general markets, foreign and domestic. Third is the tremendous increase in the crude production of the territories, which threatens to glut the domestic markets not invaded by the Texas refiners. Not much of the trouble can be fairly laid at the door of Kansas, though its law-making has not improved the situation in any particular.

Events are rapidly confirming the conclusions of the special representative of The Gazette who was detailed to investigate the petroleum situation in general and the Kansas flurry in particular. The real trouble is overproduction of oil and the conviction growing upon all classes of oilmen that there will be no early diminution in the available supply. The Kansas outbreak was a mere incident, engendered by inexperienced operators and development of the fact that thousands of investors in cheap oil stocks would never realize the fortunes they had hoped for. This truth is even dawning upon the Kansas mind now, and it is probable the whole matter will be almost forgotten by the time Gov. Hoch is ready to retire again to private life.

Value of a Navy.

Among the many predictions made by military men concerning the present war, that of Admiral Dewey is the most direct and pointed. He does not infer that if certain hypotheses prove true the result is likely to be as indicated, but he declares a decisive sea fight will now virtually end the war between Japan and Russia. Moreover, he finds the lesson of the situation in the value of a strong naval equipment, as Japan and Russia are no doubt wishing now they had a few more ships to overmatch the enemy. Admiral Dewey believes if Spain had known how much stronger our navy was she would never have gone to war with us, and that one of the best guarantees we can have of peace is a suitable fleet of battleships. This is precisely the view of The Gazette on this subject and the reason it has supported President Roosevelt's naval policy.

Admiral Dewey may be mistaken in the supposition that Spain would have avoided the conflict had she known the quality of our navy, for Spanish pride is foolhardy. It is certain, though, that Spain greatly underestimated our naval strength, and it is notorious that Russia held Japan in contempt before the opening of hostilities. The Russians have learned a lesson, but it can hardly be of supreme value to them in the struggle on the China sea. Admiral Dewey does well, however, to impress the lesson on the American public.

Pledging New Voters.

Among the many academic organizations in Boston is the new voters' festival, whose members subscribe to the freeman's oath of 1834, which pledges them to always give their votes solely in the interest of the public welfare. The annual gathering is held in Faneuil hall and is addressed by speakers interested in the public welfare, who strive to impress young men with the responsibility of the suffrage. While it is non-partisan in character, a majority of its promoters are naturally independent in politics, although there are active politicians at the meetings. At the festival gathering the other day over 300 took the oath and listened to patriotic music which interspersed the addresses.

One of the significant addresses was that made by the Rev. Thomas I. Gasson, professor of ethics at Boston college, a Catholic institution. Taking lawlessness for his subject, he expressed regret that any officeholder should trample on the laws of the state and that in so doing he should win the applause of his constituents. He also urged all young men to cast their votes in the interest of respect for law and reverence for legal authority. In view of the fact that Representative Curley of the Massachusetts legislature could not have attended the session because he was detained in jail for breaking the laws and that a member of the Boston board of aldermen was his associate in confinement, there was an application to his remarks which must have been appreciated. The prisoners had posed as martyrs and had been showered with floral gifts by their constituents to brighten the monotony of their confinement. It remained for the Catholic teacher to denounce what members of the clergy could not well mention without being criticised for too great activity in politics.

If the policemen detailed to break up the loafing nuisance in Fifth avenue lose their jobs through the success of the scheme they might find another doing the same thing for Sixth street between Liberty and Duquesne way.

A member of the Kentucky legislature was shot and killed the other day. They find this method more convenient in Kentucky than going out to the polls and voting against a man.

Having made such a brilliant success of his first invasion of Pittsburgh for cabinet timber it is not surprising to hear the president may come again on the same errand.

A news item declares that there is danger of the complete extinction of lobsters. Evidently this observation has reference to only the piscatorial species. The other kind are increasing.

Our Democratic contemporary, the Post, and its almost Democratic rival, the Dispatch, are much worried about the legislature because it has been better than they expected.

Evidently the industrious thieves hope to prevent the annexation of Aspinwall by carrying off everything portable in that borough before a vote is reached on the subject.

A man by the name of Jozwialkowski was defeated for alderman in Chicago. Victims of the war news from the east evidently formed a safe voting combination.

In view of the Odell-Platt fight in New York, politics the members of the lesser factional feuds are cashing in for the price of a ticket to the big show.

Extinction of the lobster is predicted. There are a few left in Kansas City by the Mercantile concern, though they have been dubbed "suckers."

The gentlemen who manipulate the get-rich-quick schemes out in Kansas City at least have a refreshing sense of humor and frankness.

All this fuss over the Rockefeller gift is sure to drive some of our millionaire philanthropists to spending their money foolishly.

Little Bobbie's Essay on Hotels.

hotels is places whare you sine your name in a book and git ice water the first thing when you walk up next day; in hotels thare is a clerk that stands behind a desk and looks at you when you want a room and he tells you it will cost you so much a day & upwards. befoar you go it is always upwards beckaus you see lots of things around a hotel that you want and thay come high.

there is different kinds of hotels; thare is the family hotels whare all the ladies sit around in rocking chares and talk about the lady in room 8 & how much munny the men git that live thare. these hotels are nice for young married women beckaus while thare husbands are at work thare is a nice warm place for them to stay and roast thare naybors, & thare is lots of company for them so thay can play whist and not git the prize and git mad.

other hotels are mostly for show people, beckaus thare rates are reesonabel & you pay in advance, at these hotels you can see the show ladies in the day time and that way you learn that they are not so nice off the stage without thare makeup but some of them are pritty nice anyway.

other hotels are whare the traveling men stays, thay set in the offis and look out through the windows at the gurls that go past, and try to flirt with every one thay see, in these hotels thare is a bilyard room and a sine that says "Bar," and when you see that sine you turn to the rite and thare you are.

I would like a job as bell boy in a hotel, a bellboy can ware a nice uniform with brass buttons and when he brings ice water & things to the room he gits nickels and dimes and sumtimes 25 cents, & when he saves this up he can git a nice suit and a diamond and part his hair in the middel and git to be a clerk.—Milwaukee Sentinel.

Australian Holidays.

One of the subjects discussed by the premiers' conference in Hobart was the placing of the public holidays of the commonwealth on a uniform basis. At present Queensland has 15 general holidays in the year; Victoria has 13; South Australia, 11; Western Australia, 10; New South Wales, 9, and Tasmania, 7. By the side of these figures our modest four sink into insignificance. But there is a revolt among the business people of the commonwealth cities against this excessive compulsory leisure. In addition to the regular holidays, special ones are proclaimed from time to time.—London Chronicle.

Cost of Golf Balls.

The price of the rubber-cored golf balls is about to take another jump, according to advices from the trust headquarters, and there is likelihood that the player who is in the habit of slicing or pulling his shots into impenetrable bogs and such places will be out 75 cents per lost ball. Such an action on the part of the trust will without doubt lead to a wider use of the old solid gutta percha ball. The new balls, with all their livelinese and rolling propensities, are not worth 75 cents apiece. Their use has been to a large degree a fad and the trust has relied on this fact.—Boston Advertiser.

Precedence by Avoirdupois.

An African explorer tells of a tribe he met whose members determined worldly rank according to avoirdupois. The heaviest savage was chief of the tribe, the next fattest was first lieutenant and so on. As soon as a member gained in weight over the neighbor next above him in rank, he advanced one step in authority. Wealth, looks, personal popularity, capacity, were not taken into consideration when determining the standing of members of the tribe.—Hodgkeiser.

TALKED OF IN GOTHAM.

By Frank A. Parker.

NEW YORK, April 12.—Flames issuing from the dining room corner of the Hotel Victoria, at Broadway and Twenty-seventh street, and spreading along the front and side wall to the first floor caused great alarm within and without the hostelry today. But for the prompt action of Sergeant Reagan of Brooklyn, who was dining at the hotel at the time, and Policemen Daly and O'Brien, who were on duty in Broadway, numerous casualties would probably have followed the fire, which caused damage to the amount of about $3,000. A lighted cigar, carelessly thrown under the heavy curtains of the restaurant window, it is supposed, ignited them, and the flames spread to the ornately decorated ceiling before the people in the place had time to effect an escape. Dense smoke soon filled the room and a rush was made for the doors to the cafe and office. The scare thus created soon spread throughout the hotel, and many frightened patrons hastened from their rooms with their valuables seeking every possible exit, including the fire escapes.

It required the combined efforts of the hotel employes, who went through the house assuring everybody that there was no immediate danger, to calm the fears of patrons. While the firemen and the policemen were busy fighting the fire a woman opened the window of a building in Broadway overlooking the restaurant corner. She held in each arm a poodle dog. She was attired in her night dress and it was feared that she would attempt to jump out. Firemen and several persons in the crowd cried out to her that she was in no danger, but she was visibly agitated and remained at the window watching the work of the fire fighters.

Comes from the Rarebit Country.

John L. Radnor, one of the largest tinplate manufacturers in Wales, has come all the way across the Atlantic with his wife to get a look at President Roosevelt in the flesh. "My mission here is to see the country and its president," said Mr. Radnor, at the Waldorf-Astoria. "I am taking just now the first vacation I have had in the last dozen years, and I said to myself I couldn't do a better thing than spend it in America and get a look at the president at the same time. Such a great deal, you know, has written about Mr. Roosevelt on the other other side that it is difficult for one in the old country who has never seen the man himself to discover what he is really like. I expect to remain in the country about four months."

Copy Chopper Gets to Judge Parker.

The entertainment committee of the Democratic club has blue penciled the speech to be delivered by Judge Alton B. Parker at the Jefferson day banquet. The committee has notified him that his long speech for the feast of the Waldorf-Astoria tomorrow, which would require one hour or one hour and a half, must be cut down to 35 minutes. "Such a long speech would spoil the dinner," said Robert B. Roosevelt, one of the members. "This is not an occasion for a lengthy presentation such as would go before the court of appeals," continued Mr. Roosevelt. "It is merely a public dinner, and the time is short. Judge Parker came along with this speech, which was altogether out of the question. Others were to have 20 minutes. We finally decided to give him 35 minutes."

Jew Must Remain Jew.

The Hebrew Standard of this city will print tomorrow a long editorial, criticising severely the coming marriage of Miss Rose Harriet Pastor and J. G. Pheips Stokes, though it does not name them. The gist of the editorial is that the Jew must remain a Jew, and that only thus can he fulfil his mission in the world. It remarks:

"The notoriety which the lady in the case has achieved is nauseating in the extreme and likely to turn the heads of Jewish girls anxious to figure in the daily press. The union of two persons should be a matter of absolute privacy, concerning only their nearest relatives and friends. The world at large does not care one iota whether their souls blend, or whether he is imbued with a Jewish spirit and she with a Christian spirit."

Subscribers to Osler Theory.

Ruefully remarking, "I guess Osler is right, there is no chance in this world for an old man to get work," John Wandell, 70 years old, one of the best known engineers in New York in his day, retired to his room in the old Market house and early today was found dead, the gas escaping from a jet which had been opened full. Jacob Ritter, who has the adjoining room, smelled the gas and Policeman White was summoned. Upon breaking down the door, the aged engineer was found dresses in an old steamboat uniform that he prized highly and had not worn for years. Wandell has several grown-up children, but his friends do not know where any of them live.

Big Deer Hunt in Metropolis.

Half of the employes of the Bronx park, supplemented by a squad of police, today engaged in an exciting hunt for a dozen fallow deer, part of a herd of 15 kept in the deer run in the zoological garden, which escaped from their enclosure some time during the night and scattered throughout the neighborhood of the park. Three of them were recaptured and returned to the park, but the other 12 are still at large. Commissioner Hornaday of Bronx park is on the trail of the deer, heading a squad of his assistants. The deer are of a species very rarely seen in this country and are of great value.

To Spend Easter in New York.

Mrs. John W. Mackay and her daughter, Princess Stigliano, who arrived on the Kaiser Wilhelm, are making their headquarters at Hotel Netherland, and have decided to spend Easter in New York. "I visit New York once a year," said Mrs. Mackay today, "but never go west. There are so many painful memories out there. In Europe, where I have resided since my husband's death, it is like living another life. But I must come back to see my relatives and friends. I shall return to London about the middle of May, stay at my town house until July, then go to Paris."

QUIET OBSERVATIONS

By Erasmus Wilson.

'Tis not for man to trifle; life is brief,
And sin is here;
Our age is but the falling of a leaf,
A dropping of a tear.
We have no time to sport away the hours;
All must be earnest in a world like ours.

Not many lives, but only one have we,
One, only one;
How sacred that one life be,
That narrow span,
Day after day filled up with blessed toil,
Hour after hour bringing in new spoil.

Our being is no shadow of this air,
No vacant dream;
No fable of the things that never were,
But only seen.
'Tis full of meaning as of mystery,
Though strange and solemn may that meaning be.

Mr. Quiet Observer:—In a recent issue of The Gazette appeared a part of a piece of poetry which I have to full, and have been trying to ascertain the writer's name. Some time ago I purchased several scrap-books of clippings which were gathered from newspapers in 1860 to 1865. In going through the book I found six verses of poetry written on a small sheet of letter paper. The first two verses of which you published.

The paper I have is written with pen and ink and in the corner marked: "Dr. Bonar Adv J 5-3-62."

Perhaps this will give you a clue to the writer. The second and third verses I give you on the inside, you can note the missed line of second verse. I was of the opinion that I had the original and that it had never been printed, but was surprised to see it in your paper.

G. E. K.

* * *

The lines referred to were picked up in an exchange just as they appeared in this column two or three weeks ago, but without the author's name. Possible some of our readers may have a copy of the entire poem, the title of which is "Our One Life."

This is entirely too good a poem to be lost, and so good that it entitles its author to be known and given full credit for his work.

When clipping or copying anything never neglect to include the name of the author, and whenever possible, give the name and date of the paper or magazine in which it appeared. This always gives value to the article, besides such credit is due to both autnor and publisher.

Much of the valuable literature tucked away in scrap-books is cheapened by not having the names of author and publisher, and the date attached.

It costs nothing to append these, and yet there are exchange editors, and clippers, too, who are very careless in this parlicular. In fact there are some who clip off the credits, seeming to feel that they are free advertisements for the writers and publishers.

Do you make scrap-books?

It is a mighty good habit to fall into, for it cultivates your tastes for good things. You will naturally select the things you like best, so that your collection will comprise a book just to your liking.

There are clipping fiends who gather all sorts of truck. These rarely make books of it, but carry it around in their pockets, or lay it away where they will never see it again.

Maybe you haven't the time to paste up your stuff, or maybe you don't know how to make a presentable book. Some persons take it that any sort of an old book will do to paste things in.

A well made and neatly bound scrap-book is as presentable as any other book, and one in which the collector may take a good deal of pride.

Scrap-book making can be made profitable as well as entertaining—profitable to those who for any reason are compelled to stay indoors. To the invalid or cripple it furnishes both enjoyment and profit.

How many well arranged and neatly bound scrap-books have you ever seen? And yet there is scarcely a reader of current literature who has not scraps enough to make one or more handsome volumes, and who would cheerfully pay a reasonable sum to have them preserved in book form.

* * *

The better way to make a scrap-book is to paste the clippings on separate sheets of book paper cut to the size of the book desired. As these leaves are pasted, and before the paste dries, they should be placed in a letterpress, an old book, or between smooth boards with sheets of paper between them, and left to dry. In this way they will be kept from wrinkling.

Before the pasted leaves have become entirely dry they should be taken out and loosened up to prevent them from sticking together.

As the clippings are being pasted the title of each piece, together with the name of the author, should be written on separate slips of paper or cards. After the book has been completed these cards can readily be arranged in alphabetical order, thus making a complete index to be copied and bound in the book.

Care has to be taken in pasting so as to allow room at one edge of the sheet for binding. When the sheets have been paged and the index completed the binder will do the rest. You can choose the style of binding and lettering and make the book as elaborate and as costly as you please.

If you are artistic you can embellish the title, illuminate the pages or illustrate the poems and pieces, thus giving the book a double value.

* * *

The many inquiries concerning scrap-books, how to make them, or how to preserve choice selections, indicate a demand for such work.

And then the cry of invalids for something to do, either for pleasure or profit, suggests scrap-book making. It is very light work and needs but little instruction to make one handy at it, particularly anyone who has good taste and can do neat work.

Neatness and good taste are essential in making a creditable scrap-book.

As far as known there are no practical scrap-book makers here, except some who make up their own books.

Anyone who might wish to take up this work can get all the necessary instructions from a bookbinder or a job printer. As no capital would be required to start in this business it would come in mighty handy to some who find it difficult to get on in life.

As a means of helping those in need to help themselves any further information concerning the scrap-book business will be cheerfully given.

Do something; and do it well.

THE WORKER.

Lo I have wrought in common clay
Rude figures of a rough-hewn race!
For pearls strew not the market place
In this my town of banishment,
Where with the shifting dust I play
And eat the bread of Discontent.

Yet is there life in that I make,
O Thou who knowest, turn and see!
As Thou has power over me,
So have I power over these,
Because I wrought them for Thy sake
And breathed in them mine agonies.

Small mirth was in the making. Now
I lift the cloth that cloaks the clay,
And, wearied, at Thy feet I lay
My wares ere I go forth to sell.
The long bazaar will praise—but Thou—
Heart of my heart, have I done well?

JAPAN'S CAPTIVES.

Care of Russian Prisoners a Burden.

Aside from the tremendous burden of the active campaign itself, says the Shanghai Mercury, Japan must find herself saddled with a heavy indirect expense in caring for her Russian prisoners. Already there are at the different prison camps, that is, the places which have been chosen as headquarters for receiving the prisoners, some 30,000 Russian captives, officers, privates and supernumeraries (these last including a few women and several children), all of whom have to be clothed, fed and guarded, and if all of the Port Arthur garrison who are not to be permitted to return to Russia on parole are taken to Japan this number will be very materially increased, without taking into consideration any more who may be captured in other engagements. At a very moderate estimate these three items of primary expense, namely, food, clothing and guards, cannot be much less than 50 sen a day, and at that rate the total which Japan will have to provide for one year's maintenance of her prisoners of war is upward of 5,000,000 yen, and there is the disagreeable fact confronting the Japanese government that it is probably impossible for it to use the labor of those prisoners in any advantageous way.

No wonder, then, that the people of Japan are grumbling at the heavy expense that is added to their already onerous burden. The legitimate expenses of the war they bear cheerfully, as a matter of principle, although these have already reached a sum quite twice as great as that which was announced by the government at the commencement of hostilities, but there is noticeable in the vernacular press a disposition to ask if the authorities are not needlessly coddling the prisoners, doing too much for them in a sentimental way, and if the men cannot be compelled to do something that shall at least contribute toward their keep, if not pay the whole expense thereof. Yet there is no open revolt at the expressed intention of their government to do what it can to make the Russian prisoners at least comfortable.

Russians Hearty Eaters.

Russians justly have the reputation of being hearty eaters, and they are not accustomed to the simple diet which is satisfying to the Japanese, so that even if the prisoners are kept upon a diet that, to them might seem almost abstemious, the cost of it would quickly run away with three times the sum that is sufficient to feed a Japanese prisoner. In the Japanese jails it can hardly be necessary to spend more than 10 sen a day for the food of a native prisoner, who gets no meat, but little fish and absolutely nothing in the way of what a native of that land would call "luxuries." With the Russian prisoners it is very different.

To keep them well they must have a good deal of meat and other things that are never dreamed of in arranging the fare in Japanese prisons at ordinary times; to such an extent is this true that the prices of meat and vegetables have nearly doubled in the last few months. So that it will be seen at once 30 sen a day for food is not an extravagant sum to allow per capita to those Russian prisoners.

This leaves only 20 sen for clothing, medical attendance and expenses of guards, a sum scarcely sufficient, and it is quite likely that the estimate of 30 sen a day will be almost doubled when the bills are actually settled. Besides this burden of expense there is staring Japan in the face the grave danger to her people of an outbreak of disease among the Russian prisoners. In spite of every reasonable effort on the part of the Japanese guards, it is well nigh impossible to make the Russian prisoners take necessary precautions.

An Epidemic Possible.

If an epidemic of dysentery or smallpox or something even worse should break out at any one of the prison camps it will have sad effects upon the Japanese people in the neighborhood, and may spread all over the country, and with the approach of warm weather that danger will become a positive menace. It would be interesting to know just how the Japanese prisoners in Russian hands are faring. Exact knowledge is not available, and, besides, the number cannot be comparable with that of the Russian prisoners in Japan, for no such disaster as the surrender of Port Arthur has befallen the Japanese. It is certain, however, that a considerable number of Japanese have been taken by the Russians, but where are they and how have they been treated? The disagreeable impression created at the time of the surrender of Port Arthur when the disparity between the number of Japanese prisoners actually accounted for with the number that must have fallen into the Russian hands became evident, has not yet been removed and is not likely to be effaced.

A Rival for Fourth Place.

At the last census Pittsburgh stood eleventh in size among the cities of the country. At the next census it bids fair to rival St. Louis for fourth place. That rank it can attain, of course, only by the process of annexation, but as Allegheny and other neighboring towns have long been physically parts of a Greater Pittsburgh the legal change will not be in any sense forcing the city forward to a rank it should not properly claim. A consolidation bill has passed the Pennsylvania legislature, and while a local referendum is necessary before it takes effect, the outcome of that referendum is not regarded as in doubt. Pittsburgh has for a number of years ranked sixth among the cities in the total of its bank clearings. In 1903 it ranked fourth in building operations. It is one of the most important railroad centers of the country. The foundations of its prosperity are so solid that it has the best of hope of retaining the relative position among the cities that it has gained. Indeed, it would be hard to find a Pittsburgh man who did not expect to see his city surpass Philadelphia before many years have elapsed.—Chicago Record-Herald.

WOMAN DEFENDS AMERICAN WARS

Speaker at National Council Declares Conflicts Formed Glorious Epochs.

RACE SUICIDE IS DISCUSSED

[By Associated Press to The Gazette.]

WASHINGTON, April 12.—Amendments to their constitution, increasing representation in the annual executive session, as well as in the triennial session, were adopted by the National Council of Women in triennial session today. Miss Susan B. Anthony was designated founder of the International and National Council of Women.

A defense of war was made by Mrs. Belinda S. Bailey of California, who submitted the report of the Ladies of the Grand Army of the Republic. There is, she said, a growing sentiment against war as if the public mind had had a surfeit of it. Yet, she continued, as horrible as war appears in some of its aspects, its flowers are not red. She spoke of the American wars from 1776 down to and including the Spanish war, and said all had been waged in the interest of constitutional government, union, civilization and progress.

Periods of peace or war are as tools to the workmen, she said, and can be judged only as good or evil by what has been accomplished in them for the advancement and progress of the human family. Judging by this the war period from 1861 to 1865 is still the most glorious era of history because it freed 4,000,000 slaves and brought into being a homogeneous nation. We feel justified in maintaining a society based upon war services and find it good to speak often to our children of the splendor of those great days.

In a quiet way the observations of President Roosevelt on tthe question of race suicide is receiving the attention of some of the prominent delegates. Some of them take issue with the president on this subject, and say he should look to the women of his own social set for race suicide. "It is the pace set by our society women, particularly in official life," one of the delegates declared, "which makes race suicide a subject for profound thought. The women of the middle classes, and the women of the 'submerged half,' as we call it, do not practice race suicide. It is the business burdened, the determined to get rich father and the society crazy mother who refuses the cares of parenthood."

It is more than probable that resolutions of some kind will be presented to the council in which the delegates will officially take notice of the president's suggestions.

LOVE OF FATHER CHECKS MARKET

John W. Gates' Father Is Dying, and Son Forgets May Wheat Corner for the Day.

FRENZIED FINANCIERS RESTING

[SPECIAL TELEGRAM TO THE GAZETTE.]

CHICAGO, April 12.—John W. Gates reached Chicago this morning. Finance stumbled in its operations to permit a troubled man to touch the human side of life. Mr. Gates was on his way to St. Charles to pay a last respect to his father, who is dying.

The Gates family is strong in its loves and hates. It comes from an intense stock. On the board of trade some 20,000,000 or 30,000,000 bushels of wheat bought for delivery next month were awaiting Mr. Gates' will. Market prices nervously bounded up and down, principally up. Still, this did not interfere with the speculator's one thought to get to St. Charles and say a last farewell to the man who gave him life. He left at noon for the old home. Gates, Sr., was not expected to live over the day. While the market felt various electric touches, the man who is waging the tremendous wheat control issue with the Armours, was going westward to honor his sire.

The father is Asel Gates. He is as much a character as his son. He has been ill before. His vitality has been remarkable. This time, though, the father is surrendering. Mrs. John W. Gates reached his bedside at 12:40. John W. Gates was there at 2 o'clock. The son was able to pay his last respects to the man he has always honored.

One of the close friends of Mr. Gates said after his leaving for St. Charles this noon:

"So far as the whole market is concerned he is not letting go of any transactions in which he may be. He is not of the type to quit when all market conditions favor his judgment or to quit when temporary conditions might drive a less powerful man into fright. Whatever he is doing in the market is being sustained and will be kept so until his own judgment dictates a settlement."

Meanwhile finance halted—the dying man at St. Charles, the love borne him by his son, the love which he bore him, rose above the sordid turn of the wheel for money.

Love and death held back the market.

BUILDERS ELECT OFFICERS.

Conference Committee on Wage Scale Reported Terms Have Been Agreed Upon With Workmen.

The Master Builders' association held its annual meeting last night in the Heeron building, Seventh street and Penn avenue. The principal business transacted was the election of officers. J. Charles Wilson was chosen president; F. J. Graham, vice president; R. K. Cochrane, secretary, and John S. Elliott, treasurer.

The committee appointed to confer with a committee of the carpenters' union reported that terms had been agreed upon subject to the ratifications of the master builders and the journeymen carpenters. The executive board of carpenters met last night in the Arnfeld building. What action the master builders and the executive board of the carpenters took will not be made known until this morning, when the two committees will hold another meeting. Indications are that a settlement will be reached.

MUSTANGS RACE THROUGH STREETS

Two Car Loads of Bucking Broncos Cause Terror to Allegheny Pedestrians.

IS AN EXCITING ROUND-UP

Wild mustangs and bucking broncos racing madly through the streets of Allegheny, yesterday evening, created a thrilling spectacle, and frightened scores of persons in the downtown section of the city.

Two carloads of the wiry little horses from the western plains, en route to the east, were unloaded at the Riverside sales stable's siding, at the foot of Balkam street, during the afternoon. In charge of several mounted men the 15 animals were started for a siding on the Pittsburgh & Western, at the foot of Morgan street, where they were again to be put into cars for shipment east.

While the cavalcade was crossing Anderson street, near Robinson, several of the mustangs took offense at the sound of a buzz saw in Simon's planing mill, and started to manifest their displeasure by such equine maneuvers as are only seen in a three-ring circus or on the great grazing plains of the west. It took only a few seconds to break the ropes that tethered them together and, once free, the excited beasts took to their heels and scattered in all directions.

Three of them galloped down Sandusky street and across the Seventh street bridge. At Duquesne way they met a street car, and promptly turned tail and recrossed the bridge to Allegheny. The others took various routes, and seemed bent on showing their speed qualities. A telephone message was sent to the Riverside stables and to other stables in the vicinity. Mounted men started out to help in the round-up, and the police gave assistance. The breakaway occurred about 6 o'clock and in an hour all the animals had been corralled and safely placed in the cars.

In their hurried wanderings the tough little beasts clattered along the streets and took short cuts across the pavements, whenever such a course pleased them. Hundreds of pedestrians took refuge in stores and doorways during the early stages of the excitement, and hundreds of small boys with no thought of danger, made the capture more difficult by chasing after the horses and driving them to further capers. Despite the fact that the streets were crowded with people getting home from work, not an accident resulted and none of the horses suffered anything more serious than scratched knees.

At the hearing she raised the point that his father and not she is responsible for the boy. The father, it developed, does not stay at home.

ST. PETERSBURG, April 12.—The peasants at Orgeieff, near Odessa, recently seized the land of some of the big estates and proceeded to divide it. Troops have been dispatched to the scene. An additional force of Cossacks has also been dispatched to Saratoff to quell the agrarian movement there.

Nervousness

Read my offer—a full dollar's worth of my Remedy free to try—without deposit, or risk, or promise to pay.

Nervousness, fretfulness, restlessness, sleeplessness, irritability—all are the outward signs of inward nerve disturbance. The fault is not with the nerves which give you warning—not with the nerves which enable you to feel, to walk, to talk, to think, to see. But the inside nerves, the automatic power nerves—these are the nerves that work wears out and worry breaks down.

I have not room here to explain how these tender, tiny nerves control and operate the stomach, the heart, the kidneys, the liver. How excesses and strains and overindulgence destroy their delicate fibers. How, through a bond of sympathy, weakness in one center is conveyed to each of the other centers. How this same bond of sympathy produces the outward signs of nervousness which should warn us of the trouble within. I have not room to explain how these nerves may be reached and strengthened and vitalized and made well by a remedy I spent thirty years in perfecting—now known by druggists everywhere as Dr. Shoop's Restorative. I have not room to explain how this remedy, by removing the cause, puts a certain end to all forms of nervousness, inward and outward, including fretfulness, restlessness, sleeplessness, irritability. All of these things are fully explained in the book I will send you when you write.

In more than a million homes my remedy is known and relied upon. Yet you may not have heard of it. So I make this offer to you, a stranger, that every possible excuse for doubt may be removed. Send no money—make no promise—take no risk. Simply write and ask. If you have never tried my remedy, I will send you an order on your druggist for a full dollar bottle—not a sample, but the regular standard bottle he keeps constantly on his shelves. The druggist will require no conditions. He will accept my order as cheerfully as though your dollar lay before him. He will send the bill to me.

Will you accept this opportunity to learn at my expense absolutely how to be rid forever of all forms of nervousness—to be rid not only of the trouble, but of the very cause which produced it? Write today.

For a free order for a full dollar bottle you must address Dr. Shoop, Box D, 505, Racine, Wis. State which book you want.

DR. HOLLAND IS ROYALLY RECEIVED

Sent Many Invitations by Government Officials—Guest of Army and Navy Club.

DIPLODOCUS BEING UNPACKED

By CURTIS BROWN, Staff Correspondent.
(Special Correspondence to The Gazette.)

LONDON, April 5.—Now that Dr. Holland's arrival is becoming more widely known, he is being overwhelmed with invitations from his large circle of friends in London. Last Saturday evening he dined at the Army and Navy club as the guest of Sir Alfred Maloney, late governor of Honduras, and more recently of the island of Trinidad. Besides numerous private invitations which Dr. Holland has accepted for the next 10 days, he will attend, next Saturday evening, a large dinner at the Trocadero restaurant, given in honor of Frederick Greenwood, author and newspaper man, who founded and edited for some years the Pall Mall Gazette and later the St. James' Gazette. At this dinner the Rt. Hon. John Morley, M. P., who is a personal friend of Dr. Holland, will preside. On the evening of April 18 Dr. Holland will deliver an address before the Zoological society of London upon "The Dinosaur of North America." This lecture Dr. Holland will illustrate with lantern slides.

The unpacking of the great diplodocus was completed on Saturday morning, and this week the assembling of the huge skeleton is rapidly going on under the personal supervision of Dr. Holland, assisted by Mr. Coggeshall.

In spite of his work at the Natural History Museum and the demands of social engagements, Dr. Holland has found time for some outdoor recreation. On Saturday he spent several hours at Richmond on the Thames, painting an oil sketch of the river from the famous terrace.

HOMESTEAD BOY VICTIM OF A MAD DOG'S BITE

Colored Youth Expires in Agony in Mercy Hospital, Where He Was Taking Pasteur Treatment.

George Edward Spence, aged 13, a colored boy of Homestead, died in Mercy hospital yesterday morning of hydrophobia, while undergoing the Pasteur treatment. He was bitten on March 14 and was taken to the hospital the same day. From the day that he started on the treatment he showed a steady improvement. A week ago he had so far recovered that he was permitted to return to his home. On Monday, however, he gave evidence of a recurrence of the disease, and was brought back to the hospital. His death yesterday was accompanied by great suffering.

Young Spence was one of 15 victims of the same dog, which is said to have been owned by a family living near Hays station. The animal had been tied up at home, but broke his chain and started amuck through several towns in the Monongahela valley, going as far as Duquesne Junction, where he bit a number of people. He then tore wildly through the streets of Homestead, West Homestead and Hays, snapping at everybody that came within his reach. Men, women and children were among his victims. He was chased by men with guns and was finally killed near the Glenwood bridge.

Young Spence was among the worst of those bitten. The animal snapped at his face, destroying the sight of one eye and terribly lacerating the boy's face. After the accident the school children of Homestead took up a collection, and this money was used to defray the expenses of his treatment at the hospital. All of those who were bitten at the same time are said to be out of immediate danger.

Mississippi Sheriff Shot.

SENATOBIA, MISS., April 12.—Sheriff J. E. Poag of Tate county was shot and killed today by eight masked men who entered the jail and made an ineffectual attempt to liberate James White, a white prisoner, who is to be placed on trial on a charge of murder. One of the invaders was wounded.

Bank Cashier Commits Suicide.

ROCHESTER, N. Y., April 12.—Arthur Lutchford, secretary and treasurer of the Mechanics Savings bank of this city, committed suicide at his home today by shooting. The cause is said to have been ill-health.

A high rate of interest is of no consequence whatever if the principal is endangered. That is one reason why a savings account in the Peoples Savings Bank, Fourth Avenue and Wood Street, is the best investment for idle funds. It offers absolute safety. Four per cent compound interest paid.

NO DANGER FROM THE X-RAY.

Over 20,000 X-Ray Examinations Have Been Made By the Bi-Chemic Physicians During the Past Four Years Without a Single Accident or Unfavorable Condition Arising. All Applying Within a Limited Time Will Receive an X-Ray Examination Free of Charge.

Some doctors who lack sufficient progressiveness to equip their offices with all the latest efficient aids to diagnosis, try to frighten their patients with stories of accidents by burning arising from X-Ray examinations. The truth is there is positively no danger from burns where the Fluoroscope is used. The only danger exists where a photograph is made requiring prolonged exposure, and this only in rare instances. With the Fluoroscope examinations this is avoided.

PARALYSIS OF ARM AND PROSTRATION OF NERVOUS SYSTEM

Mrs. D. W. Shay, Banksville, Pa., says: "I had trouble with my right arm which began with numbness and pain, which finally affected the use of it to such an extent that I could not raise it to my head. My nervous system was also prostrated. I could not control my nerves at all and my general health was impaired. I was so nervous I could not sleep, had headache, spells of dizziness and pains all through the back. After trying different patent medicines without benefit I finally visited the Bi-Chemic Physicians. Under the Bi-Chemic Treatment I began to notice improvement in about a month and now I have good use of my arm, my nervous system is restored and my health built up."

STOMACH TROUBLE.

John Zeltz, 267 West Bean St., Washington, Pa., says: "As a result of carelessness in my habits of eating, with exposure, I became affected with stomach and kidney trouble about eight years ago. I had severe pain in the stomach with nausea and vomiting spells, would bloat so much after eating, and not being able to rift up would become all smothered up, with shortness of breath and palpatation of the heart, and dizzy spells, a dull headache and intense backache, frequent desire to void contents of bladder and constipated condition of bowels. I also had intense rectal itching and burning which produced a very nervous condition, with insomnia. Reading of the good work the Bi-Chemic Physicians were doing I decided to try the Bi-Chemic Treatment. In about two months I began to notice a change and now all these symptoms are gone, I can eat and sleep and work regularly and feel better than I have for fifteen years."

FEMALE TROUBLE.

Mrs. Amanda Lee, 1212 Palo Alto St., Allegheny, says: "About five years ago while in a delicate condition I had an accident which left me in a very bad way. I had pain and soreness over the region of the ovaries and my periods were so painful and lasted so long I became so weakened down I was not able to do my work and had to spend most of my time in bed. I was also troubled with headache, vertigo, backache, nervousness and had severe burning in voiding contents of bladder. I treated with a specialist in Cleveland and with other doctors without relief until I placed myself under the Bi-Chemic Treatment. I had given up hope, but now all is changed, these symptoms have left me. I have gained in weight and strength and am doing my own work. I sincerely recommend the Bi-Chemic Treatment to all suffering women."

KIDNEY & BLADDER TROUBLE.

James Barker, 1213 Glen St., Wilkinsburg, Pa., says: "About two years ago I became affected with kidney and bladder trouble which wrecked my whole system. I became weakened all over and my nervous system so prostrated I had to give up my work. I had such pains in the small of the back that I could hardly straighten up, headache, dizziness and a heavy, drowsy, stupid feeling, no energy, loss of appetite, puffiness under the eyes and could not retain the contents of the bladder. I was constipated and my liver became affected, my complexion at times was as yellow as if I had jaundice. I tried different doctors and patent medicines without benefit. Reading of the many cures accomplished by the Bi-Chemic Physicians I decided to try the Bi-Chemic Treatment. The result has been wonderful to me. The above symptoms have all disappeared, my complexion is cleared up. I feel like a new man and am working every day."

THE BI-CHEMIC TREATMENT.

COMMISSION HAS MADE DECISIONS

Panama Canal Builders Settle Many Important Problems in the Task.

WILL HAVE CHINESE COOLIES

[By Associated Press to The Gazette.]

WASHINGTON, April 12.—Chairman Shonts, Gov. Magoon and Chief Engineer Wallace met in Secretary Taft's office today. It was the first meeting of the executive committee of the Isthmian canal commission, and the details of the organization were considered. Secretary Taft communicated to the three commissioners his views regarding the work of the commission, supplementing the instructions issued by the president.

On the whole, the committee had a long and satisfactory discussion with Secretary Taft and reached some conclusions as to the organization of the Panama railroad directory, at the meeting which is to take place next Monday in New York.

Chairman Shonts of the canal commission will be the next president of the Panama Railroad Company and every member of the commission will be made a director of the company. That will leave four members of the directorate to be named, and they will be civilians.

Another important conclusion related to the assignment to duty of the four engineer officers of the canal commission, who are not members of the executive committee, namely, Admiral Endicott, Col. Ernest, Gen. Haines and Mr. Harrod. It was decided to make these four men a special engineering commission. To this engineering commission will be assigned the various engineering problems arising in the course of the construction of the canal.

The labor problem was discussed at length, and it was resolved that contracts should be made for the employment of 2,000 Japanese and 2,000 Chinese coolies in the canal construction. This is merely a preliminary and experimental move, but if it succeeds the engineers will have an almost unlimited force of labor to draw on. No opinion has yet been had from the attorney general as to the right of the commission to employ its labor more than eight hours daily, but it has satisfied itself that there is no legal obstacle to the employment of this coolie labor under contract.

An interesting feature of the discussion today, was a statement by Engineering Commissioner Wallace to the effect that it is entirely feasible to construct either a tide level or lock canal across the isthmus, though he himself strongly favored the tide level project. It also developed that Mr. Bunau-Varilla, who recently visited Washington, and it was supposed was to be a member of the board of consulting engineers, did not desire any such connection with the project, but came principally to submit to the president and Secretary Taft an original plan of his own, under which he thought the great canal could be constructed within the term of four years. This project, together with one submitted by Mr. Lindon W. Bates, a Chicago and New York engineer, will be referred to the newly created engineering commission for examination and report.

During the conference the delegation of ministers of the west coast South and Central American republics, who saw Secretary Taft Saturday in connection with the Panama railroad rates, called at the department and were introduced personally to the members of the executive committee. They formally submitted the memorial of which an abstract was published yesterday, defining their complaint at great length, and this was taken under consideration with the promise from the secretary that there should be greater liberality of treatment of competing transportation lines than now existed in their relations with the Panama railroad. Commissioner Wallace said that the entire road would be double-tracked and supplied with an entirely new and modern equipment of rolling stock, there would be a flat rate for all traffic, but transcontinental rates would not be much affected.

SOCIETY

ONE of the season's most beautiful weddings was that of Miss Emma Marie Buhl Boggs, daughter of Mr. and Mrs. Russell H. Boggs, and William McBride, which was an event of last evening. The Rev. Dr. Henry D. Lindsay solemnized the marriage at 7 o'clock in the North Presbyterian church, Allegheny. The bridal party, marching to the strains of the Lohengrin march, was led by the ushers, Thomas McBride of Troy, N. Y., William H. Hays, Jr., Augustus Gross MacConnell, Frederick North, Guy R. McComb and Ralph H. Dempsey. They were followed by the maid of honor, Miss Mary N. Davidson, and the bridesmaids, Miss Katherine Reed, Miss Adeline J. Spencer, Miss Ruth I. Wilson and Miss Edna M. Buhl. The bride entered on the arm of her father, and was met at the pulpit rail by Mr. McBride and his best man, a brother, John McBride of Troy.

The bride wore a regal creation of white satin and rose point lace. It was a princesse gown, the entire front of which was formed of the lace. A full court train, hanging from the shoulders, was fastened at the waist line and a lace veil, falling to the end of the train, gave to the skirt a dainty finished air around the hem. The veil was held in place by a cluster of orange blossoms and the bridal bouquet was of white orchids and lilies of the valley. The only ornament worn was a delicate chain necklace set with diamonds. Miss Davidson appeared in a gown of pale pink chiffon, made decollete, and the neck bodice finished with a band of Irish lace. She carried a shower of mauve orchids and lilies of the valley. The bridesmaids, who marched in single file, wore gowns of shaded mauve chiffon, the wearer of the deepest hue coming first. Their gowns were fashioned after that of the honor maid, the short skirt having four narrow ruffles at the bottom. They each carried a shower of lilies of the valley and a few mauve orchids.

Following the church ceremony a brilliant reception was held at the Boggs home in North avenue, Allegheny, Mrs. Boggs receiving with her son-in-law and daughter. She wore a handsome gown of white crepe de chine with a lace coat effect. At both church and home the decorations were unusually effective. In the former, reaching from the sides to the center of the ceiling, were graceful festoons of feathery asparagus, dotted here and there with white roses. The pulpit was massed thick with potted plants, palms, white azaleas, daisies and cinerarias, all being grouped in a most artistic manner, while all the windows and ledges through the auditorium were banked with primroses, the higher window sills having pink hydrangeas. The lights gleamed softly through masses of asparagus springerii and marking the pews were tall brass standards filled with annunciation lilies. During the wedding supper the bridal party surrounded a table in the library on which the centerpiece was a combination of pink roses and white lilacs. The bookcases and mantel were banked with maidenhair fern and a new variety of azaleas.

Yellow azaleas almost hid the fireplace in the drawing room, and above was the mantel banked with calceolaria and ferns, while as a background for the receiving party a cornet was filled with tall palms, at the foot of which nestled starry primroses. The table in the dining room was occupied by a centerpiece of American beauty roses. After the supper Mr. and Mrs. McBride left the city on their wedding trip and will receive their friends in North Avenue, Allegheny, after June 1. They will remain there through the summer while Mr. and Mrs. Boggs are in their Sewickley home and until the completion of a new home, which will probably be in the East End.

Rose-Shepard.

A beautifully appointed wedding took place last evening at the home of Mr. and Mrs. S. M. Rose in Fifth avenue, Bellefield, when their daughter, Miss Carrie Virginia Rose, became the wife of Frank W. Shepard. The ceremony was performed at 7 o'clock, the Rev. Dr. Maitland Alexander officiating and the Rev. Dr. Daniel Dorchester, jr., pronouncing the benediction. The bride was given away by her father and was attended by Miss Marie Tower of Troy, N. Y., as maid of honor, and by Miss Dorothy Westlake Brown as flower girl. Completing the bridal party were the best man and ushers, William Goldsborough, Charles Aull and Frederick Minor. The bridal robe was one of white satin made en princesse and trimmed with duchesse lace. Orange blossoms caught and fastened the tulle veil, and the bouquet was of white orchids, lilies of the valley and gardenias, showered with maline and tied with white satin ribbon and maline. Miss Tower wore a decollete gown of pink chiffon and carried white sweet peas. A feature of the floral work was the leghorn hat filled with pink sweet peas which the little flower girl carried and on which pink satin ribbons caught together with a huge maline bow formed the handles. Little Miss Brown wore a dainty white mousseline and lace frock. The decorations were characterized by exquisite daintiness, the mantel in the drawing room being banked with farleyense fern and Madame Chatenay roses. Against this was arranged the white satin prieu dieu and the white reiling which completed the improvised altar. Great clusters of calla lilies were arranged at intervals on the bannisters, and in an upper room the bridal table was set for 14, with a centerpiece of white iris and a touch of the lavendar bogenvillie. Yellow iris and white lilacs were used on the table in the dining-room, where the mantel was effectively banked in jonquils and greens. After the ceremony an informal reception was held, Mrs. Rose, in a white lace robe, receiving with the bridal couple. Following the wedding supper, Mr. and Mrs. Shepard began their honeymoon trip, at the conclusion of which they will be at home in Shady avenue, East End. Among the wedding gifts were a handsome chest of flat silver, a piano and quantities of cut glass and silverware. Mrs. Rose has furnished the living room in the new home and Mr. and Mrs. Otis M. Shepard, parents of the bridegroom, have furnished the dining-room.

AMONG THE CLUBS

ONE of the most charming events in club circles was the matinee of the Alliance Francaise held yesterday at the Twentieth Century club. The little drama given was a lecture minee—a play that is read not acted. Moliere's "Les Precieuses Ridicules" was presented with all the spirit of a play at the Theater Francaise in Paris. Each actor took his part admirably and the French was almost native in its liquid purity. The story was a witty criticism of the times of Moliere, in which he represents two provincial women who have suddenly acquired wealth coming to Paris to affect the airs of grand dames. The first two suitors who are real noblemen are spurned by these ladies, and to revenge themselves they send their two valets, who are accepted as suitors. Then the noblemen come in and expose the trick. Those taking part were Mrs. A. McKaig, Miss Suydam, Miss B. Levy, Mr. Laboureu, Richard Skalweit and Mr. Merlet. After the matinee tea was served in the parlors to guests while a business meeting was conducted in French in the assembly room. The treasurer, Edward A. Woods, made a report, as did Miss E. B. Suydam, the secretary. The president, E. B. Smith, presided, and the election of officers resulted as follows: President, E. B. Smith; first vice president, William Macrum; second vice president, John G. Holmes; third vice president, W. Lucien Scaife; secretary, Miss E. A. Suydam; treasurer, F. A. Woods. The directors included Mrs. George C. Burgwin, Mrs. William Thaw, Jr., Mrs. George B. Gordon, Miss Grace Gormly, Miss Helen Horne, Miss Isabel McClung, William C. Fownes and C. Mercader.

Meeting of Audubon Society.

The Western Pennsylvania Audubon society met in the office of Burgess John Keys, Wilkinsburg, yesterday afternoon. Letters were read from Rabbi J. Leonard Levy, John B. Jackson, Mrs. James M. Guffey, Ex-Congressman George Shiras, III., and Dr. Daniel Carhart, accepting the honorary vice presidencies of the society. A motion was passed to send circulars to all Wilkinsburg schools, which are to be read to the scholars on Bird day, tomorrow, and those wishing to promise to protect the birds are to sign the circulars. A special meeting of the society will be held next Wednesday at the residence of Miss Gertrude Guffey, at 809 South avenue, Wilkinsburg, to decide whether or not to offer rewards for the conviction of persons killing birds. Leon Brumbaugh suggested that it would be better to spend the money heretofore expended on rewards, by sending literature to the offenders. He said he believed it would have a greater influence for good than a sentence or fine. At this time those who make the information receive $10 reward from the Audubon society and $10 from the county.

Board of Managers Is Elected.

Yesterday the boards of directors of the Civic club and Permanent Civic committee met in the Civic rooms in Penn avenue and elected a board of managers for the Soho Bath. These officers, who include some of the foremost men of the city, are not yet announced, as it was decided to notify them first by letter before permitting the publication of the list. However, five of the 28 members chosen are ex officio. They are Mayor Hays, James S. Wightman, president of the select council; R. B. Ward, president of the common council; Miss Kate C. MacKnight, president of the Civic club, and Mrs. Levi Bird Duff, president of the permanent Civic committee. J. Boyd Duff, who had been appointed chairman of a committee to draft a plan of management of the Soho Baths, was present and read his report.

Speaks on "School of Savagery."

Carl A. Eastman, a Sioux Indian, spoke yesterday before members of the Twentieth Century club on "A School of Savagery." His talk was a narrative of boyhood and girlhood of children reared under the old Indian traditions as contrasted with the new school. He himself grew up as an Indian, and his name was Ohiyesa. He is at present a practicing physician at Amherst.

Seven Churches and a Meeting House.

The Women's club of the Sewickley valley met yesterday afternoon at the Edgeworth clubhouse, Mrs. M. E. Brown, president presiding. The speaker was Mrs. George A. Gormley of Sewickley, who gave a talk on English cathedrals, her subject being "Seven Churches and a Meeting House." Miss Gabansky gave several piano selections. There will be no meeting of the club next week, but on April 26 the election of officers will be held. The following ticket has been prepared, and is the only one in the field: President, Mrs. F. D. M. Hacker; vice president, Mrs. George T. Rose; secretary, Miss Elizabeth Anderson; corresponding secretary, Mrs. John M. Tate, jr., and treasurer, Mrs. Robert J. Cunningham.

Discuss Sociological Studies.

At the New Era club meeting yesterday in the Central Y. W. C. A. rooms, the subject of "Sociological Studies" was discussed. Mrs. James R. Kibler presided, and the literary chairman of the day was Mrs. Samuel S. Miller, who took the place of Mrs. E. E. Crooker. The leader read the first paper, "The City Beautiful—Greeley, Colorado." Miss Sarah Sweeny had a paper on "Internationalism and the Peace Movement." Mrs. William T. McKnight gave a paper on "The Republic of Switzerland." Mrs. F. B. Iams gave a statement of the commonwealths that have abolished capital punishment, which include Maine, Michigan, Rhode Island and Missouri. Among others who spoke was Mrs. Ludwig, J. Koethen, jr., on "Is Communism a Failure?"

Club Notes.

The Ladies' auxiliary to the Y. M. C. A. of Bellevue will hold a market and bazar at the association rooms 501 Lincoln avenue, on Saturday afternoon. All kinds of home made bread, pies, cakes, etc., fancy and useful articles will be on sale. The announcement of the coming market has brought in many advance orders and a flourishing market is assured.

The Pittsburgh committee of Women's clubs for playgrounds, vacation schools and recreation parks has issued invitations for Arbor day exercises and tree planting at the South Side Recreation park, South Ninth and Carson streets, on Friday at 2 o'clock. Dr. R. R. Holbrook will be master of ceremonies. The committee in charge of the tree planting has for its chairman Mrs. Samuel S. Miller.

LOVE OR HEALTH.

That is the Question?

The young woman who values social pleasures above health is apt to find herself at the end of the season's social gayeties, in much the same condition as the young lady above. She received many love notes from ardent admirers but she valued most the letter which she received from Mrs. H. Harrison, as follows:

"I suffered for more than seven years with a very complicated form of female trouble accompanied with nervous prostration, and after doctoring with six physicians (all bearing excellent reputations), was informed that unless an operation was performed I would be an invalid all my life. Hearing of the wonderful cures effected by Dr. Pierce's remedies and believing that there must be a cure for almost every ailment, I determined to make one more effort. I wrote to Doctor Pierce, and I will never forget his kindly advice, telling me to follow his instructions faithfully and not to submit to an operation. I commenced to improve after six weeks' treatment, and in five months my improvement was so noticeable to friends that they began to inquire about my method of treatment. I was pleased to tell them of the wonderful means of cure that I had most fortunately found, and, as so many ladies applied to me for information regarding Doctor Pierce's world-famed medicines and his plans of treatment, I felt in duty bound to give them the benefit of my experience, so told them the facts. The large number of positive cures effected by Doctor Pierce's remedies alone, used by my recommendation, seemed, in one year's time, nothing short of a miracle. I couldn't have believed it had I not seen the parties and known the facts.

Feeling so grateful to a kind Providence and to Doctor Pierce for my restoration to health, and wishing most earnestly to have the pleasure of bringing relief to other sufferers, I have, within the past fifteen years, suggested and recommended Dr. Pierce's treatment to hundreds of ladies, and regard my efforts in this direction as grand missionary work.

(Signed) Mrs. H. Harrison,
112 West 2nd Street,
Sioux City, Iowa."

We advise every young woman who is despondent, nervous and exhausted to write Dr. Pierce, care of Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and receive advice in regard to her troubles. If the case seems to be one for which Dr. Pierce's Favorite Prescription is indicated, the same will be advised, but in no case does he recommend this medicine for all kinds of diseases.

The "Favorite Prescription" of Dr. Pierce is *not a "cure-all."* It is designed solely for woman's ills and weaknesses. It is not claimed that it will cure all of the peculiar ailments incident to women, as, for instance, ovarian and fibroid tumors. Doctor Pierce has never claimed too much credit for his now world-famed "Prescription." He does claim that it is an honest medicine and not an alcoholic beverage; furthermore, that is the only medicine advertised for the cure of female weakness and kindred maladies that contains no alcohol or other harmful agent; that it has behind it the recommendation of a record of cures second to that of no other medicine. It costs much more to make it than it does to make alcoholic medicines, but it's worth more to the one in need of its restorative properties and yet it is sold at about the same price. Don't accept a cheap, vinous or alcoholic substitute for Dr. Pierce's Favorite Prescription, which

MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL.

"Favorite Prescription" keeps perfectly in any climate. A teaspoonful only is a dose.

Dr. Pierce's great book, "Common Sense Medical Adviser," would prevent more than half the sickness in any family. It gives the best advice for curing common ailments without a doctor. It tells all about anatomy and physiology and the origin of life, and is the most valuable, practical medical work ever printed. A free copy in paper covers sent for 21 one-cent stamps to pay cost of mailing only. World's Dispensary Medical Association, Buffalo, N. Y. For cloth-bound, 31 stamps.

Dr. Pierce's When the "Favorite Prescription" is not quite laxative enough, as in obstinate constipation, the little, pleasant, sugar-coated "Pellets" should be taken to aid the "Prescription." One or two for a laxative, two to four for a cathartic. They alone have been known to cure many bad cases of stomach trouble, dyspepsia and indigestion. They act on the liver and regulate the bowels. Put up in glass vials, corked, therefore, always fresh and reliable. **Pleasant Pellets.**

MISTAKE COSTS CHILD ESTATE

The right of a national bank to erect an office building was a question of much importance before the superior court yesterday. The Farmers Deposit National bank sued the Western Pennsylvania Fuel Company for rent, which led to the appeal and the raising of the question.

The Farmers Deposit National bank in April, 1903, rented two rooms in its building at Fifth avenue and Wood street to the Western Pennsylvania Fuel Company, the lease running three years, at an annual rental of $1,050. In August the trust company vacated the rooms, paid rent for several months thereafter, and then declined to make further payment. The bank sued, and the defense set up was that the plaintiff was a national bank, chartered to carry on a banking business; that the bank had erected a magnificent building, of which only about one-fourth of the first floor and about one-eighty-eight of the entire floor space was used for banking purposes; it was also denied that the building was erected for the bona fide purpose of providing a place of business for the bank and asserted that it was used as an unlawful means for the bank to invest its surplus and to engage in a private speculation in real estate. The lower court gave judgment against Fuel company for want of a sufficient affidavit of defense, and the company appealed.

National Banks Versus Builders.

In the argument for the appellant yesterday it was held that under the authority given by congress the bank could only hold such real estate as is absolutely necessary for the transaction of its business; that the bank has gone into a separate business of renting offices and that the part of the building rented to the defendant was erected at a separate time from the bank building proper. It was held, too, that to allow this was against sound public policy; that national banks are enacted for the benefit of the community, are depositories for the earnings of the people and are to hold these earnings for the benefit of the people. At another stage the argument was advanced that if banks were allowed to indiscriminately hold and rent real estate in time of money scarcity, they could possess themselves of the best values in real estate at low prices, for the reason that they would have the means of ready purchase that might be denied to private parties.

For the bank it was claimed that the laws of the United States gave the right to purchase the ground, erect the building and lease them and that the appellant is estopped from denying the right to make the lease in question. On the matter of the building, it was held the directors of the bank, in the exercise of a discretion with which they were invested by law, deemed it wise to purchase the ground as necessary for the immediate accommodation of the bank in the transaction of its business. Having purchased it and invested large sums of money, they thought it wise not to erect a small one-story building, which might or might not be sufficient for the needs of the bank, but to erect a building suited to the location and value of the land, and one which would render safe the money so invested. The United States has made no objection, and it was said that "the appellant in its attempt to resist the collection of an honest debt cannot be permitted to do so." The directors can alone determine how much real estate was needed, and in the absence of a charge of bad faith on the part of the directors by the federal government, no person can question the wisdom of their judgment. Both sides quoted numerous decisions from the time of Chief Justice John Marshall down.

Other Suits Argued.

The other cases argued were E. D. and A. R. Ballow, appellants, vs. H. G. Mehring, an action on a real estate transaction; Bruce Hirsuch vs. D. R. McNaught and C. H. Harris, appellant, an action on a sheriff's sale; Margaret A. Bowles, administratrix, vs. Louisa Wright, appellant, an action on a judgment; Allegheny Valley Camp Meeting association vs. W. J. Kountz, executor and trustee, appellant, an action over an assessment on camp ground lot holders. Appeal of Emma G. Kauffeld against the executor of Elias Kauffeld, deceased.

Judgment of non pros. was entered in the case of McCarren, appellant, vs. O'Brien et al. The cases of Woodward, executor, appellant, vs. the City of Pittsburgh, and Soloman et al. vs. Westcott, appellant, were continued.

Judge Over handed down an opinion and decree in the estate of Martha J. Carroll on the appeal of Mrs. Louisa C. Hemick, an alleged adopted daughter, from the decision of Register Stengel, who revoked letters of administration granted her, giving them to Ella J. Stevenson, a relative and next of kin to Mrs. Carroll. The case, which was heard a few days ago, attracted attention of members of the bar, as the decision has considerable bearing on other cases of adoption. Judge Over sustains Register Stengel's decision and holds that the appellant can only be looked upon as a creditor of the estate and not as an heir.

Years ago Mrs. Hemick was taken into the home of D. W. C. Carroll, a wealthy boiler manufacturer, and was subsequently adopted, but by an oversight the name of Mrs. Martha J. Carroll, his wife, was omitted from the papers. It is due to this fact that Mrs. Hemick now loses her right as heir to Mrs. Carroll.

Mrs. Hemick's attorney argued that there was a verbal agreement between Mrs. Carroll and Mrs. Hemick by the terms of which the foster child was to receive the estate after her death and it was shown that Mrs. Hemick received all the attention that a child of Mrs. Carroll would have received.

Judge Over says: "Not having been legally adopted, she takes no portion of the estate under the intestate laws, and her claim is only that of a creditor under contractual relations. As the right of next of kin is prior to that of creditors, the demurrer must be sustained and the appeal dismissed at cost of the appellant.

Answers in Hotel Duquesne Suit.

In the suit of D. F. Henry against Sarah L. Black, R. J. Coyle, Jr., A. W. Mellon, William Witherow and the Union Realty Company, to compel the specific performance of an agreement for the sale of the Duquesne hotel property, the defendants yesterday filed separate answers. The case was before the supreme court and the decision allowed an amendment to the original bill, sending the case back for trial. It was in this amendment that the answers were filed.

The Realty company admits that Mrs. Black delivered the option or contract to Coyle, but denies that it was delivered to Coyle in trust for the company, as alleged in the plaintiff's bill. It admits that Coyle was an officer in the company and was entitled to share in commissions of sales he made, including any sale he made of property in litigation. It is admitted the negotiations took place between an employe of the company and D. F. Henry, but that when the contract was prepared Mrs. Black refused to sign.

Coyle, in his answer, says he sold the property to A. W. and R. B. Mellon and that he secured a commission of $10,000. He denies that Mrs. Black agreed with the Union Realty Company through him, to pay a commission, but that he, as an employe of the company, expected to account for the commission.

Mrs. Black corroborates Coyle and the realty company regarding the agreement, but says she did not know that Coyle was employed by the company. She says she was desirous of selling to the Mellons and when informed they wanted the property, executed the agreement. The agreement, she says, was for the payment of $25,000 cash and the balance of the $800,000 asked in 10 years, to be secured by common bond and purchase money mortgage. She says she refused to sign the agreement selling the property to Mrs. Henry, as she authorized no one to act in this direction.

William Witherow, proprietor of the Duquesne hotel, admits that he leased the property from the Mellons and was notified in January, 1904, by Mrs. Henry, to vacate. W. Mellon corroborates the other defendants and admits he leased the property to Witherow.

Court Is Asked to Interfere.

John H. O'Donnell filed a bill in equity against S. W. Vandersaall and Homer L. Castle, asking the court to restrain the former from selling or taking any further action toward an apartment house in the Nineteenth ward, and to compel Castle to complete the building. The plaintiff alleges that if the court does not restrain the defendants, he will be deprived of his equitable rights and title under certain agreements with Vandersaall. He also asks that the court compel Vandersaall to permit him to manage the property and to solicit tenants. O'Donnell asks that Vandersaall be compelled to convey the property to him after the payment of certain debts secured by terms of the agreement.

The plaintiff was erecting an apartment house and says he was indebted to some contractors, who were represented by Castle as attorney, and D. Vandersaall. He alleges he entered into an agreement with the defendants whereby they were to secure him a loan of $45,000 and that Castle was to secure the title as trustee. The money was to be used in paying debts against the property. The plaintiff says he was to be allowed to rent or sell the property, but that as soon as the title had been transferred, Vandersaall refused to permit this and ordered the janitor of the building not to allow O'Donnell to show people over the premises. The plaintiff claims this is a deliberate plan on the part of the defendant to defraud him out of his equity of about $20,000. O'Donnell alleges Castle was to finish the building according to plans and specifications and this has not been done, and that Vandersaall has mismanaged the property. The plaintiff alleges Vandersaall is attempting to deprive him of his equity, as the agreement entered into between them expires on April 11, and there is nothing to show his equitable title to the premises.

Policy Holder Protests.

In the suit of Charles L. Brown, receiver of the Quaker City and Mutual Fire Insurance Company, against George A. McCrory, to recover assessments levied against policy holders, the defendant filed an answer. He alleges he was not notified that there were any assessments beyond the annual premium, and was also notified that the company was in a prosperous condition. He says the true state of affairs was that the company's funds had been misapplied and the company was insolvent when his policy was issued. He alleges he was at no time protected against loss by fire. He asks for a more specific statement and wants the books and accounts produced.

Judge Young refused the motion of the attorney for the defense in the damage suit of Peter Kaplitz against the Consolidated Traction Company, to withdraw a juror and continue the case. The motion was made because of an alleged remark made by the plaintiff's attorney in addressing the jury, in which he is alleged to have stated "the plaintiff is suing to recover $2,000 damages." Exceptions were taken to Judge Young's ruling and the bill was sealed for the defendant.

The accounts of administrators in several large estates have been filed with the register of wills for audit. The first and final account of the estate of Joseph H. May of Allegheny, shows a cash balance due the estate of $63,162 33. The estate was inventoried at $80,337 39. The sale of the lumber business brought $13,989 18, and money received from interests and other sources brings the total value of the estate to $97,644 99. Credits of $34,481 76 are charged against the estate.

In the second account of the estate of Frederick B. Eggers the accountant charges himself with $28,328 45, the amount of unconverted assets as shown by the first accounting, and with $3,064 75 as suspended by the decree of court in 1903. Amounts received since the first filing are as follows: Dividends from Monongahela House store, Ohio street store and interest on deposits in German American bank, $2,107 55. The balance due the estate is $26,999 45.

The first and final account of the estate of Harlow Woodhouse shows a balance for distribution of $34,153 89. The majority of this amount comes from the sale of property to B. M. Block, at $38,000.

Estate Left by Clergyman.

The Rev. John G. Brown's estate shows a balance for distribution of $13,460 37 invested as follows: Four bonds East Pittsburgh Water Company, $4,000; one bond Citizens Traction Company, $1,110; two bonds Monongahela River Coal and Coke Company, $2,220; cash, $6,130 37. The first and partial account of the estate of Sullivan Johnson shows a balance for distribution of $25,711 27.

In the suit of D. McK. Lloyd, et al., against the Pittsburgh & Connellsville Railroad Company, asking for $1,500,000 damages for land appropriated along the Monongahela river, real estate men have been testifying as to the value of property in the vicinity. The large map and plaster of paris relief map are being used to show the exact location of the lands in question. The plaintiffs will occupy the stand for several more days.

The will of C. L. Gist, late superintendent of transportation of the Pittsburgh & Lake Erie railroad, who died recently, was filed for probate. The value of the estate is not given, but his entire possessions are left to his widow. The document is brief, having been written on a single sheet of the deceased's office paper. The will was executed April 30, 1904.

LONGER SHUT-DOWN FOR FLINT GLASS FACTORIES

INDIANAPOLIS, April 12.—At a meet today of representatives of 40 flint glass bottle manufacturers west of Pittsburgh, it was decided to enforce a summer shutdown of all western flint bottle factories for 90 days, which is 30 days longer than the period stipulated in the agreement with the employes union. Overproduction is said to be the reason.

WANT MANY MILLIONS.

Fifty Western Colleges Will Help Mr. Carnegie to Avoid Dying a Multi-Millionaire.

GRINNELL, IA., April 12.—(Special.)—The first authentic statement of the plan of Andrew Carnegie for distributing a very large amount of money to all colleges throughout the west has been made on information from President Daniel F. Bradley of Iowa college. President Bradley and President McClelland of Knox college at Galesburg, Ill., were deputed to prepare for submission to Mr. Carnegie a plan by which he could distribute a number of millions among smaller colleges.

Mr. Carnegie considered two years ago requests aggregating $5,000,000 from congregational colleges at Beloit, Wis., Galesburg, Ill., Grinnell, Ia., Colorado Springs, Col., and declined to donate in this way. He asked that a committee of college presidents prepare him a comprehensive plan by which the institutions might be helped in accordance with their merits and needs. The result is a proposal, which looks to the distribution of $12,500,000 among 50 colleges in 17 states.

NO MORE SALARY INCREASES.

Director Bigelow and Mayor Hays Agree to Wait Until After Annexation.

Councilman C. W. Helmold called upon Mayor Hays and Director Bigelow yesterday and it was agreed that no salary increases shall be granted city employes at this time. The mayor had previously asked that the salaries of his chief clerk and stenographer be raised, but Director Bigelow contended that if any advance were granted scores of other city employes would also be asking for more money.

The director said a general revision of salaries may be made after annexation and that no changes should be made until then. The four or five ordinances granting salary increases, passed by select council on Monday, will be signed by the mayor, because they got through councils before the agreement made by the director and the mayor.

Back fence and tea table advertising are good, but too slow.

What women have to say about your goods to each other in their little exchanges of social courtesy is of a good deal of importance.

If a woman tells her friends and neighbors that your product is good and they ought to buy it, surely there can be no better advertising. The only trouble is, it is too slow.

What you want is to have ten thousand women trying your goods all at once in all parts of the land, then telling thirty or forty thousand more women they ought to try them. When you get an endless chain of this character started in every State in the Union you will begin to feel the effect.

In order to get this result you must set the wheels in motion by advertising in publications that reach the homes of your possible customers. The Saturday Evening Post is the favorite American weekly magazine. It has 800,000 regular weekly subscribers, and is read by 4,000,000 people. The character of The Post readers insures good results to the advertiser. The fact that it appears weekly makes it four times as strong a medium as it would be if it were a monthly.

(No. 398.)

AN ORDINANCE—To authorize the proper officials for and on behalf of the city of Allegheny, to enter into a contract with the Pennsylvania Company operating the railway of the Pittsburgh, Fort Wayne & Chicago Railway Company for the granting to the said Pennsylvania Company and the Pittsburgh, Fort Wayne & Chicago Railway Company, their successors and assigns, the right to occupy and use for certain purposes a strip of land in the city of Allegheny, west of Federal street, and south of Stockton avenue, commonly known as South Park and originally known as the Common ground of said city.

Section 1. Be it ordained and enacted by the city of Allegheny, in select and common councils assembled, and it is hereby ordained and enacted by the authority of the same, That the proper officials of the said city be and they are hereby authorized and empowered in the name and on behalf of the said city of Allegheny, to make and enter into a contract with the Pennsylvania Company, lessee of and operating the railway of the Pittsburgh, Fort Wayne & Chicago Railway Company, in the form following, to-wit:

CONTRACT.

This agreement made this ..... day of ..... A. D. one thousand nine hundred and five, between the city of Allegheny, hereinafter called the city, as first party, and the Pennsylvania Company, lessee of and operating the railway of the Pittsburgh, Fort Wayne & Chicago Railway Company, hereinafter called the railway company, as second party:

WITNESSETH:

Whereas, By an ordinance dated October 12, 1858, the Ohio & Pennsylvania Railroad Company, predecessor in title to the said Pittsburgh, Fort Wayne & Chicago railway, was granted a right of way through certain city lots in the city of Allegheny, and the same right of way was continued through the Commons to Federal street; and

Whereas, The Pennsylvania Company, lessee of and operating the Pittsburgh Fort Wayne & Chicago railway, has in accordance with its contract with the city of Allegheny, dated the first day of November, 1901, and for the safety, security and convenience of the public, duly elevated the grade of its tracks over and across Federal street in said city, and partly as a result of such track elevation and partly on account of the growth and development of the city, there has arisen a necessity for a larger, better and more modern passenger station at Federal street; and

Whereas, The Pennsylvania Company being desirous of conforming fully to the requirements of said city in respect thereto, has duly submitted plans for a passenger station of such character and size as would be a credit to the city and in every way satisfactory to the public and the company except that in order to better serve the convenience of both, it is desirable that the general waiting rooms, etc., thereof should be larger and more commodious and the driveway and approach thereto wider, and it is greatly to the interest of the public and of the city that such a station thus wholly suitable and satisfactory should be constructed and maintained at this point; and

Whereas, In order to properly attain such result it is necessary for said Pennsylvania Company to occupy and use for building purposes a small portion of the said right of way hitherto granted as aforesaid and also the narrow strip of the Common ground or South park remaining between the new south line of Stockton avenue, as lately widened by said city and the line of the grant made to the said Ohio & Pennsylvania Railroad Company by said ordinance, dated October 12, 1858, which said strip of land has been so reduced in width by said city as to be no longer in any way adapted to or valuable for park purposes;

NOW, THEREFORE,

This agreement witnesseth: That for and in consideration of the their respective covenants hereinafter set forth, it is agreed by and between said parties as follows, to-wit:

First—That so far as their right so to do exists the city hereby grants to the Pennsylvania Company as lessee and the Pittsburgh, Fort Wayne & Chicago Railway Company as lessor, their successors and assigns the right to occupy and use for the relocation and reconstruction of the passenger station, buildings, sheds, tracks, driveways, and other appurtenances suitable for the accommodation of their business in connection with the proposed new station at Federal street, that part of the South Common ground, or South park, described as follows:

Being a strip of land bounded on the east by Federal street, on the north by the present south line of Stockton avenue, on the west by the west side of Sherman avenue, prolonged southerly across said South park or Commons, and on the south by land of the said Pittsburgh, Fort Wayne & Chicago Railway Company.

Second—The railway company agrees at its own cost and expense to construct, maintain and use a suitable passenger station at such point, in accordance with the plans submitted and approved and identified by the signatures of the engineers of the Pennsylvania Company and of the director of the department of public works of said city, together with sheds, platforms, driveways and other appurtenances necessary thereto.

Third—The railway company agrees, at its own cost and expense, to construct and maintain a substantial stone wall with coping and iron fence from the west side of Federal street to a connection with the present wall at or near Sherman avenue.

Fourth—The railway company agrees that within six (6) months after the execution of this agreement it shall and will begin work on the said station and shall and will prosecute the same to completion with due diligence so that the same shall be finished within a period of one year from the time the work is commenced.

Sec. 2 This ordinance shall not go into effect until the contract herein provided for shall have been duly executed by the Pennsylvania Company within thirty (30) days from the passage of this ordinance.

Ordained and enacted into a law in councils this thirtieth day of March, A. D. 1905.

President of Select Council.

PAWNBROKER WAS NOT SURE OF MAN

Unable to Identify J. Morgan Smith as Man to Whom He Sold the Pistol.

NAN PATTERSON MEETS SISTER

[By Private Wire to The Gazette.]

NEW YORK, April 12.—Hyman Stern, the pawnbroker who sold the pistol with which Caesar Young was shot, was today brought face to face with J. Morgan Smith in the court of General sessions, but whether he identified Smith as the man to whom he sold the pistol could not be learned definitely; but it was rumored he could not. After the arraignment of Smith and his wife they were taken to the Tombs prison where Nan Patterson and her sister met for the first time since the shooting. The two women threw themselves into each other's arms and wept hysterically, while their old father, the tears running down his withered cheeks, looked on.

Nan's father, who had been in the room when the sisters met, was overcome by their greeting and had to leave the room.

Judge Foster of general sessions, fixed bail for J. Morgan Smith and his wife at $3,000. Assistant District Rand insisted on $5,000 bail at least. Shortly after being committed to the Tombs J. Morgan Smith said to a reporter, regarding his connection with the revolver with which Young was killed:

"I am glad that this is over so far. I never bought the revolver so much has been said about, and they have nothing to prove I did. I am willing to testify and tell all I know as to the case of my sister's-in-law. In the trunk which was seized by the detectives there is a statement in full, written by me, giving in detail all of my movements on the day that the pistol was bought. For this I am profoundly glad.

"We have so far been placed in a despicable light before the public at large by the district attorney and his officers, and I am only too glad to clear Nan's name. It has been impossible for me to be here before for reasons which I will explain later."

DECKHAND IS DUCKED.

Now He Demands Satisfaction and Is Angry Because He Does Not Receive It Instantly.

With the water flowing from his disheveled garments, James Smith, a deckhand on the Helen White, belonging to the United Coal Company, called on United States Commissioner William T. Lindsey yesterday afternoon and demanded satisfaction for treatment he had received from the captain of the boat.

Smith said he had shipped on the Helen White for a trip to Cincinnati, but the captain had taken a violent dislike to him. Yesterday morning at Neville island, while the boat was on the trip down, the order was given to land and Smith was told to take a rope ashore and make the boat secure. He said he followed the instructions, but while looking for a place to tie up, the boat pulled out into the stream. Not liking the idea of being marooned, Smith held on to the rope and was dragged into the river and nearly drowned.

As no action could be brought owing to the fact that Smith did not know the present whereabouts of the Helen White, he received little satisfaction. He left vowing vengence on the boat and Commissioner Lindsey.

AMERICAN LAWYER IN JAIL.

State Department Is Advised That the Prisoner in Guatemala Is Charles F. Darling.

WASHINGTON, April 12.—(Special.)—Advices received at the state department from Guatemala show that an American lawyer, Charles F. Darling, has been there imprisoned for a month on a charge of contempt of court. He is evidently the "Gardner," who, according to a report reaching San Francisco indirectly, says was imprisoned without proper trial.

The state department is advised that Darling was certainly brusque in addressing the court and was also curt in his dealings with Mr. Merry, the American minister at Guatemala. Notwithstanding this, the department of state has directed Mr. Merry to make representations so far as proper in the man's behalf.

M'CARTY IS APPOINTED; SUCCEEDED BY BONEBRAKE

PHILADELPHIA, April 12.—The directors of the Pittsburgh, Cincinnati, Chicago & St. Louis Railroad Company today appointed R. E. McCarty general superintendent to succeed Ralph Peters, recently elected president of the Long Island railroad. P. A. Bonebrake succeeds Mr. McCarty as superintendent of the Pittsburgh division, and J. W. Coneys, superintendent of the Marietta division, was appointed to the office vacated by Mr. Bonebrake. J. Frank Khoor was appointed superintendent of the Marietta division.

Turn Patient Over to Blair County.

P. H. Braidenbaugh, steward of the Blair county home, came to Allegheny yesterday and took from the insane department of the city home John Verderos, who has been confined there since April 5. Verderos, on June 15, 1903, was sentenced to the Western penitentiary for two years and four months, from Blair county, for larceny. Where his home is cannot be learned, but under the law an insane person discharged from the penitentiary belongs to the county from which he was sent to serve his sentence. His term of imprisonment expired on April 5, and as he appeared to be insane Warden William McC. Johnston turned him over to the Allegheny department of charities and correction.

Has Big Balance in Treasury.

The Firemen's disability board met yesterday and approved the following claims: John F. Lavelle, engine company No. 2, $28.14; John Patterson, fuel wagon No. 4, $8; C. J. McCaffrey, engine company No. 1, $81.42; Harry Weaver, engine company No. 8, $23.57; Frank Wagner, engine company No. 4, $15. All of the men were injured in the service. Secretary Elias Johns reported a balance in the treasury of $94,288.85.

Constable Gets a Lecture.

Constable Abraham Grosteln was given a lecture and told of the duties of a constable by Magistrate Make, when Grostein was called for a hearing yesterday morning on a charge of entering the residence of the Rev. N. Klifartway in Gilmore street, to serve a warrant. The magistrate warned Grostein that when he enters a building through the second-story window after dark, he should be ready to meet a bullet. He was discharged.

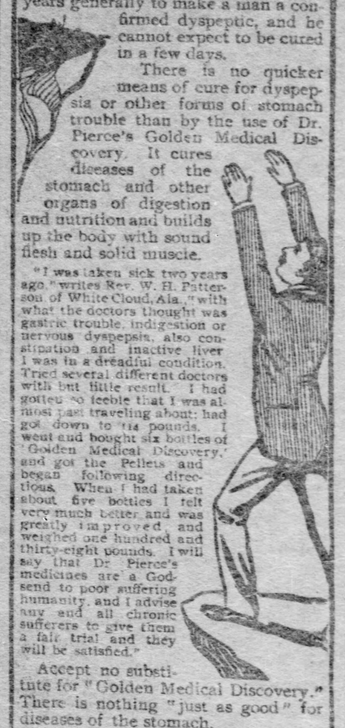
To Arrest Street Loafers.

Supt. Wallace yesterday issued orders to policemen throughout the city to keep the streets and corners clear of loafers. Young men who make a practice of posing in the streets and insulting women are to be arrested. Since the warm weather a number of complaints have been lodged with the police about men who loiter about in public places for the purpose of forming an acquaintance with women.

JUMPING UP

Is a great deal harder than jumping down. And yet people who have been for years running down in health expect to jump back at once. It takes years generally to make a man a confirmed dyspeptic, and he cannot expect to be cured in a few days.

There is no quicker means of cure for dyspepsia or other forms of stomach trouble than by the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition and builds up the body with sound flesh and solid muscle.



"I was taken sick two years ago," writes Rev. W. H. Patterson of White Cloud, Ala., "with what the doctors thought was gastric trouble, indigestion or nervous dyspepsia, also constipation and inactive liver. I was in a dreadful condition. Tried several different doctors with but little result. I had gotten so feeble that I was almost past traveling about; had got down to 118 pounds. I went and bought six bottles of 'Golden Medical Discovery,' and got the Pellets and began following directions. When I had taken about five bottles I felt very much better and was greatly improved, and weighed one hundred and thirty-eight pounds. I will say that Dr. Pierce's medicines are a God-send to poor suffering humanity, and I advise any and all chronic sufferers to give them a fair trial and they will be satisfied."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

STREET CAR TALK IN SWISSVALE

Options Sought Indicate a New Line Through Borough Along Hill Top.

PENN AVENUE BLOCK STARTED

Residents of Swissvale are again hoping to get a new street car line this year. Within the last few weeks options have been sought on several properties that would indicate an effort is being made to secure a right of way from Rankin through Swissvale to North Homestead, running along the brow of the hill a good part of the way. The route mapped out would be by way of Chartiers street, Rankin, to Arthur street in Swissvale, thence to North Homestead and from there to Brown's bridge or Salt Works station, where the proposed line would connect with the present Homestead line. The old line running from Glenwood to Braddock, along the bottom parallel with the Baltimore & Ohio railroad tracks, is of little value to the Swissvale people as the company runs only one car a day, just enough to hold its franchise. The Baltimore & Ohio authorities are said to want this roadway for trackage purposes, and the other route would be much more profitable for the street car company, as there is little traffic to be picked up along the lower line, now almost abandoned. If a line were built along the top of the hill as projected it would probably give Swissvale residents a 5-cent fare to Pittsburgh or to any of the Monongahela valley towns. At present those persons who have nerve enough to climb down the steep steps from McClure avenue and Homestead street get a 5-cent fare rate, but their ride is long and uncertain. The line proposed would also bring into market a large amount of vacant frontage that has been waiting for better street car facilities to be developed.

Splendid Improvement Started.

Work has been started on razing the old brick buildings on the lot at 945-949 Penn avenue, where Henry Phipps will erect an eight-story building for wholesale purposes. The site measures 85x150 feet, and the building will cover the entire lot, making it the largest single structure in this vicinity. Three large storerooms will be provided on the first floor, and the other floors will be rented for wholesale and warehouse purposes. Plans for the building were drawn by a New York architect, and the work will be done under the personal supervision of Harry B. Naylor, who is Mr. Phipps' superintendent. It is expected the building will be completed by January 1.

The number and kind of buildings going up in Penn avenue between Eighth and Tenth streets this year is a cause for frequent comment among real estate men who see ahead a certain enhancement in property values as a result. The Irish block at Eighth street to cost $100,000, the Phipps building to cost at least double that amount, the Fort Pitt hotel, at Tenth street, costing nearly a half million, the two warehouse buildings now being erected by T. J. Keenan near Ninth street, and another costly wholesale building to be started soon in the immediate vicinity, show how rapidly that part of the avenue is being improved.

Architect C. M. Bartberger has awarded the contract to the Henry Shenk Company for the erection of the new Nineteenth ward school house to be built in Breeds Hill street. The building will contain eight school rooms besides a principal's room, teachers' rooms and offices. It will cost when completed about $84,000.

Growing on All Sides.

The Freehold Real Estate Company, which lately absorbed the firm of Barr Brothers & Co., has spread out in another direction by taking over the business of P. M. Leahy, which was formerly done under the firm name of Leahy Brothers. The firm was located at 3447 Butler street, where it started in business five years ago. It had built up the largest rent business in that district, having over 500 properties listed on its books. The Freehold also gets a large amount of insurance business placed in three different companies which Mr. Leahy handled. P. M. Leahy and his office force are now counted among the workers at the Freehold offices in the Times building.

Solomon Schoyer is preparing to put on the market a choice tract of 20 acres of land in Swissvale. The property fronts in Monongahela avenue. In order to get Schoyer recently donated to the borough the land necessary for the extension of Alice and Aurelius street. Both are 50 foot streets and will make the new plan a very desirable addition to Swissvale's home sites.

East End Frontage Bought.

A local builder has paid $110 a front foot for 400 feet of frontage on the east side of Pacific avenue, between Coral street and Friendship avenue, Twentieth ward. The property belonged to Mrs. A. Claffey and adjoins the holdings of Emil Winter, which are also vacant. It has a depth of 170 feet, making it of exceptional value for residence lots.

Louis Fundis has sold to Luigi Costantino a residence property, 48x102 feet, at the northwest corner of Larimer avenue and Girard street, Twenty-first ward, for $12,000.

The United States Building Company has sold to Mrs. Ollie Williver a residence property, 40x100 feet, at the northwest corner of Woodmont street and South Negley avenue, Twenty-second ward, for $9,900.

The Business exchange of McKeesport sold for Margaret A. Devenny to William T. Pierce eight brick houses in Bellafonte street, McKeesport, for $10,000.

W. L. Scott & Company handled the sale of the residence of Col. A. S. M. Morgan in Lincoln avenue, Allegheny, which was published in the Gazette yesterday. R. M. Rogers proves to have been the buyer, he having paid $12,500 for the property, which is near West park.

Pastor Is Welcomed Home.

Nearly 500 persons were at the Presbyterian church, Braddock, last night, to welcome the pastor, the Rev. William G. Reagle, D. D., who returned on Monday after an absence of three months in California. The Rev. Dr. Reagle is entirely restored to health.

Woman Leaps from Window.

Mrs. Joseph Sarsfield, aged 60, leaped from a second story window in her home in Hamilton avenue, Rankin, shortly before midnight, Tuesday, to escape her husband whom, it is claimed, was pursuing her with a hatchet. She is in a critical condition in the Homeopathic hospital. The husband is in jail.

PEACE IS RESTORED.

St. Andrew's Church Trouble Is Settled by Granting Demand of Allegheny Members.

Allegheny members of St. Andrew's Protestant Episcopal church, which is at present worshiping in the old Third Presbyterian church in Sixth avenue, were granted their demand for $35,000, and the trouble in the congregation is at an end. The decision to grant the Allegheny members $35,000 was reached at a meeting of the vestrymen last week and last night the congregation ratified this action.

The Allegheny faction will arrange to become a part of Christ's church in Union avenue, Allegheny, and the money received from St. Andrew's congregation will be used to improve Christ church and build a parish house for the latter congregation. The members from St. Andrew's will have a voice in the selection of the vestry to be elected Easter Monday for Christ church.

The breach in the congregation was caused by the Pittsburgh members deciding to erect a church for the congregation in the East End. The members from Allegheny objected and asked for $35,000 of the $165,000 the congregation received for its old property in Ninth street.

Watchman Is Badly Hurt.

Frank Davis, aged 50, of Dale street, McKeesport, was taken to the McKeesport hospital last evening suffering from a fractured skull and dislocated hip. He was day watchman at the Monongahela blast furnaces and fell into a large sewer, being fished out by several other workmen.

THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies; those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers; those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

Genuine—Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c. per bottle. One size only.

QUEER DECISION MADE TIE GAME

Ruling of Umpire Kane Responsible for One Run—Clever Pitching by Kenna.

THE PIRATES FAILED TO HIT

[Special Telegram to The Gazette.]

LOUISVILLE, April 12.—A queer decision by Umpire Kane caused today's game between the Pirates and Colonels to end in a tie at 3 to 3. The disputed decision was made in the sixth inning. With one man out, Brashear drove out a two-bagger, and went to third on Houser's single. Quinlan drove a fly to Clymer, who caught it, and returned the ball to Leach. Brashear started for the plate after the fly was caught, but Houser started with the hit and never stopped. Leach threw to Clancy, retiring Houser and completing a double play after Brashear had crossed the plate.

The umpire said nothing, but when Louisville 10 minutes later claimed the run, he ruled that Brashear's score counted. Kane was very weak, and would have preferred to make no decision, but George Tebeau was more than anxious to win the game, and his insistence aided in a measure by the indifference of the Pirates, led Kane to decide the point in favor of Louisville, notwithstanding he was palpably in error. Kenna went in to twirl five innings, but finding the Pirates unable to connect safely decided to finish the game.

All Pittsburgh's runs were made in the fourth. Clarke got to first on a pass, and Beaumont on Brashear's fumble. Brashear hooked the ball to Quinlan, who tried to stretch out to second base and retire Clarke, and made the claim that he succeeded, but it was not allowed. Then Wagner stretched one over Hallman's head for three bases, chasing two runners across the plate, and tallying himself on Leach's fly out to Kerwin.

In the fifth inning Montgomery made an unusual double play unassisted. Carisch was on second when Clymer hit to Montgomery, who run Fred down on the path between second and third, and then sprinted over to second bag in time to catch Clymer in an effort to make that station. The Pirates did some very pretty work on the bases, and Carisch arrested several ambitious Louisvillians who tried larceny of second.

Louisville scored a brace of runs off Lindaman in the first inning. Murphy beat out an infield hit and stole second, scoring on Kerwin's safe one 10 feet in front of Fred Clarke. Brashear's walk sent Kerwin to second and he scored from that bag on Houser's hit to right field. In the third Murphy led off with a triple along the right field foul line, but was retired in trying to stretch it into a four-bagger.

When Phillippe went on the rubber in the fourth Montgomery drove out a clean single, moved up on Brashear's sacrifice and came in on Tommy Leach's high thrown to first of Houser's stinger, which a leap by Clancy prevented from going in the bleachers. The club will leave in the morning for Cincinnati. Score today:

News and Notes of the Coming Attractions in the Local Playhouses.

Manager Davis has provided an appropriate attraction for the week, commencing next Monday afternoon, when Pittsburgh will have its first view of the widely discussed religious drama, "The Holy City," which will be produced with fine scenic and intricate mechanical effects. In addition to the full strength of the Harry Davis stock company, including Charles Richman and Annie Irish, there will be an ensemble of over 100 people. The cast will comprise two well-known actors in Edward Mawson and Daniel Jarrett, especially engaged for the play. A special feature will be made of the music. Mr. Richman will be seen as John the Baptist, and Miss Irish as Salome, daughter of the Queen of Galilee. Every inch of room on the spacious stage of the Alvin will be utilized for the enormous quantity of scenery. The costuming will also be most elaborate, and will be historically correct, depicting the custom of dress in old Jerusalem.

The stupendous production, "Ben Hur," at the Nixon theater, will remain for another week at that house. "Ben Hur" has been playing to enormous audiences this present week, and judging from the advance sale of seats which opened at the box office this morning, another large week will be played.

The Avenue dramatic company will be seen next week at the Avenue theater in a revival of "Ten Nights in a Barroom," the complete version of the famous melodrama founded on T. S. Arther's temperance novel being used for this elaborate production.

Henry Miller will be the headline attraction at the Grand opera house next week. He is starred in "The Only Way" and "Heart of Chicago," and this will be his first appearance here in vaudeville, presenting Clyde Fitch's one-act comedy, "Frederick Lemitre." Toby Claude, a recent recruit to vaudeville from comic opera, will also be in the bill, as will Quigley brothers, Howard's ponies and others.

This seems to be a period of revivals for old dramatic successes, and there have been few more successful melodramas seen on the American stage than William J. Herman's play, "The Gunner's Mate." The drama is one of the intelligent kind, and the patriotic sentiment of the piece is the kind that always inspires an American audience.

Sullivan, Harris and Woods' next dramatic offering here to a public that fully appreciates their sound judgment, enterprise and liberality will be a new play entitled "Wedded and Parted," which is booked at the Bijou for next week.

John C. Fisher's big musical production, "The Silver Slipper," will come to the Duquesne theater next week with fine chorus and beautiful ensemble.

The next attraction at the Academy will be the annual tour of Frank B. Carr's Thoroughbreds, one of the brightest and best of burlesque shows. The company is one of the leading aspirants for popular favor in the burlesque field.

STOCKS RALLIED SHARPLY, CLOSING NEAR THE BEST

Copper, Smelting and Locomotive Led the Advance in the Industrials—On the Local Board Pittsburgh Coal Was Higher.

By JOHN O. BAGLIN, Financial Editor.

The volume of business on the New York stock exchange yesterday approximated 1,200,0000 shares. During the morning session while prices were declining the trading was dull, while in the afternoon when a sharp rally was in progress business became more active. As a rule the professional traders were bearish. In their favor was the evident anxiety prevailing in foreign financial circles as to the outcome of the naval battle which was reported to be in progress between the Russian and Japanese fleets. It is felt that this battle will settle the war, provided it is in favor of the Japanese. Another thing in favor of traders who operated for a reaction was the evidence that the friction between the Northern Securities factions is as great as ever. It is very likely that short sales for account of the professionals laid the foundation for the subsequent recovery.

Wall street quickly recovered from any apprehension it entertained as to whether Union Pacific would be supported in case the ousting of Harriman from the Northern Securities board of directors should lead to liquidation. The stock opened steady, and after a little hesitation became strong and advanced to 133⅛, closing at a gain of 1½ per cent. Extreme weakness in New York Central was also followed by a complete recovery, and with the exception of Illinois Central the entire group of stocks which have been mentioned in connection with a new railroad deal to follow the distribution of Northern Securities closed firm and higher.

Pennsylvania was quoted ex-rights to subscribe for the convertible bonds, but the extreme fluctuations were not greater than 1 per cent and the stock closed at the highest price of the day. Baltimore & Ohio, Reading and Erie also closed higher. The street railway stocks were moderately active and firm, with the exception of Brooklyn Rapid Transit, which closed at a net loss of a fraction.

The strongest stocks in the market were in the industrial department. Amalgamated Copper declined 1 per cent during the morning, but subsequently recovered all the loss and advanced to 88¼, the highest since 1901, and closed at a net gain of 1⅛ per cent. Mr. Lawson was reported to be out in a new prediction adversely affecting the stock, but the market paid no attention to him. Anaconda Copper advanced from 125¾ to 129.

American Locomotive common was very strong, rising from 56⅝ to 60 and closing at the best, the highest price ever quoted. American Smelting common also reached the highest price ever quoted and closed 1⅝ per cent higher for the day. The United States Steel issues were rather heavy and neglected during the early dealings, but later turned strong with the rest of the market and closed firm and higher, the preferred stock leading with an advance of 1⅜ per cent. The only weak member of this group was Colorado Fuel and Iron, which broke to 31¼, but later recovered most of the loss.

Electric stocks were weak and closed 1 per cent lower for the day. Talk of competition was responsible for the selling. The weakness in Consolidated Gas was accounted for by the revelations of the investigation now in progress by a legislative committee, and the decline in Peoples Gas was based upon municipal politics.

The money market was a little easier in tone for both call and time loans, but there was no change in quoted rates.

The strength of Pittsburgh Coal was the feature of the local stock market. The common rallied to and closed at 17 bid, and the preferred after selling at 72, advanced to and closed at 73½ bid. The movement was based upon the announcement of the signing of the contract for the United States Steel Corporation's coal supply, and a report current during the day that a contract had been made for the coke output of the Coal Company for the current year. The Independent Brewing stocks were also firm and higher on the report of a dividend to be declared on the preferred stock in the near future. The rest of the market was rather heavy and in some instances weak. Westinghouse Electric declined to 88 and closed at 88¼ bid. Air Brake sold unchanged at 148. United States Glass lost a dollar a share, selling at 62. Pittsburgh Oil and Gas declined to 62½, a new low point, being depressed by the further cut made in all grades of crude oil. The steel stocks were quiet but steady.

FEATURES OF THE DAY

IN PITTSBURGH.

Pittsburgh Coal preferred rallied to and closed at 73¼ bid.

The common stock sold at 18¾ and advanced to 17 bid.

Pittsburgh Oil & Gas declined to 62½, a new low point.

Westinghouse Electric was heavy, declining to 88.

Independent Brewing issues were firm and closed higher.

IN WALL STREET.

Stocks opened dull and rather heavy, but rallied and closed firm.

Sales included 1,194,800 shares stock and $2,790,000 bonds.

Locomotive and Smelting advanced to the highest prices ever quoted.

Amalgamated Copper was also firm, reaching a new high mark.

Union Pacific was a leader in the recovery in the railroad list.

NOTES AND COMMENT.

Pittsburgh Coal was not so feverish yesterday, and the final bid prices were the highest of the day. The street is taking a more favorable view of the big contract with the United States Steel Corporation, and while it is the very general impression that the price was low, there are probably other considerations in connection therewith which may result in as fair net profit to the coal company as though the latter had sold the tonnage in smaller lots at higher prices but had been compelled to pay a large broker's commission on the business. Action on the preferred stock dividend has been postponed until next Tuesday, when it is expected a quorum of the board will be in the city. What the market will do in the meantime is a difficult guess. The rapid fluctuations in price during the past few days suggests on the one hand a nervous short interest, and on the other an effort to manipulate the market for the purpose of selling preferred stock. Any pressure to sell is accompanied by bearish tactics and the price quickly crumbles away. When offerings cease and a buying order appears it can only be executed by bidding the price up. It is an unsatisfactory market in which to either buy or sell.

The weakness in both Westinghouse and General Electric Company stocks yesterday was unexplained by any news. Prospective competition may have some influence upon investors, but according to all reports both companies at present have all the business they can handle. It is said on good authority that the business of the Westinghouse company for March approximated $2,250,000, the largest total for any month in the history of the company.

Local steel stocks were very quiet and only fractionally changed. This was also true of National Fire Proofing and the natural gas stocks. The decline in Pittsburgh Oil and Gas was presumably based upon the further cut in oil to the lowest price for two years.

Members of the Pittsburgh stock exchange yesterday voted to close on Saturday following Good Friday, which is a legal holiday, contingent upon the New York stock exchange taking similar action.

Tonopah Extension was quite active, private sales of 1,500 shares at $4.89 to $5.00 being reported in addition to those recorded on the exchange. The official closing bid was $5.10. Golden Anchor, an unlisted stock, was also active, closing at $1.10 bid for 2000 shares, and $1.05 for 1,000 shares. Red Rock was quoted at 75 cents bid.

W. A. McCutcheon, a director of the Oriental and Masbate Gold Mining Company, returned from California yesterday from a trip on business connected with the company. He expressed very optimistic views as to the prospects for the company, in which Pittsburgh brokers are largely interested.

Japanese new 4½ bonds sold in New York yesterday at 88. The subscription price was 87½, and before the allotment the market advanced to 90.

The regular 2 per cent quarterly dividend on Tennessee Coal and Iron is payable May 1.

Pittsburgh Life and Trust, par value $50 a share, was quoted at 100 bid for 50 shares.

Gross earnings of Laclede Gas for the year ended February, 1905, increased $848,212, and net increased $230,244.

The annual meeting of the stockholders of the American Window Glass Machine Company will be held on Tuesday, May 2, 1905, at 12 o'clock, at the office of the company, Jersey City, for the purpose of electing a board of directors to serve for the ensuing year and for the transaction of such other business as may properly come before the meeting.

The cut in oil yesterday carried the price to the lowest level since October, 1902, for the Pennsylvania product. The latter is now quoted at $1.30, which compares with $1.80, the high point of last year.

For the year ended January 31, 1905, the profits of Union Bag and Paper Company were $906,410, against $812,497 the previous year.

Pennsylvania Steel Company directors have declared regular semi-annual dividend of 3½ per cent on the preferred stock, payable May 1, as registered April 15.

The German Imperial loan is reported to have been oversubscribed 15 times. A Berlin dispatch says general subscribers will get no allotments, as the entire amount is covered by subscribers asking to have their bonds registered as permanent investments or pledging themselves not to resell prior to October 15. It was the government's purpose to prevent excessive speculative offers, and hence the loan was offered to permanent investors at slightly lower rates than to general subscribers. This plan is regarded to have been highly successful.

Treasurer Roberts has prepared a statement showing the exact amount of money that will be paid in by the depositary banks under Secretary Shaw's recent call. The total is $82,088,000, of which $14,268,000 will be in the first installment payable on or before May 15, and $14,821,000 in the second installment payable on or before July 1.

Pennsylvania Railroad rights were quoted at ¼@¾.

Union Natural Gas was quoted at 104½ bid, and Pittsburgh Terminal bonds at 107 and interest bid.

Messrs. Graham & Company, bankers, of Philadelphia, are offering a limited amount of the $1,500,000 Washington, Alexandria & Mt. Vernon railway first mortgage 5 per cent gold bonds, due 1955, interest payable March 1 and September 1, at a price of 102½ and accrued interest. These bonds are secured by a first mortgage on the electric system operating from the center of Washington through Alexandria to Mt. Vernon. This road has been in successful operation for about 10 years, and the earnings have steadily and substantially advanced year by year. The population of Washington is about 300,000 and Alexandria 15,000. The charter and franchises are favorable and practically perpetual. The Real Estate Trust Company of Philadelphia is trustee for the issue.

The directors of the Big Four have recommended an increase in the capital stock of $11,300,000. The new issue will be entirely common stock and $5,650,000 will be offered to shareholders at par, to the extent of 25 per cent of their respective holdings on April 27. A special meeting of the stockholders has been called to be held in Cincinnati on May 31 to act upon the proposed increase in the capital stock. For the purposes of this meeting the transfer books of the company will close on April 29 and reopen on June 1. The proceeds of the $5,650,000 are to be used to pay for improvements of various kinds and not for the acquisition of other properties. The remaining $5,700,000 of the proposed new stock will be retained in the treasury to be issued at future dates as needed by the company. The proposed increase will make the total issue of common stock $40,000,000.

Wall street professional traders continued to look upon the market yesterday with suspicion. Some of those who sold stocks protested that they saw industriable evidence of selling for the account of some of the persons who have been the most demonstrative leaders of the bull campaign. Considerable liquidation was attributed to the account of others from western points and the conviction held that this represented measures of precaution and a strengthening of position on the part of those committed to the speculative deal in wheat. The wheat market was comparatively quiet, but developments there are watched with less attention from the stock market point of view owing to the quantity of extensive speculation both in the wheat and the stock markets. The share taken by this interest in the bull campaign which has been conducted in stocks is variously estimated and the extreme optimistic current, if they should prove justified, would sufficiently explain the uncertain tone of the present market.

The weakening of the foreign exchange market was regarded with relief and a lower discount rate in London and an advance in the discount rate at Paris also caused the outward movement of gold from New York. That it is realized that a decisive battle between the opposition fleets in the China sea might affect foreign money markets to an extent which would precipitate a demand upon our money reserves.

The substitution in the Northern Securities directorate of a new name for that of the head of the Union Pacific party was built on behalf of both sides to the old quarrel in that property. Fears of an outbreak of this old quarrel were emphatically declared to be unjustified. But the Wall street view of the matter has gone considerably beyond a mere quieting of the old dispute and has adopted a view of thorough harmony and co-operation in going forward to new projects of even larger scope than those of the past. There has been unquestionably extensive speculation in stocks based on this view and the rather curt manner of Tuesday's action of the directors shakes the confidence held in that supposition.

An enthusiastic weekly review of the iron trade awakened a lively demand for United States Steel preferred and other stocks of this group.

George W. Johnson, president of the Lawrence Savings and Trust Company of New Castle, Pa., and the largest proprietor of limestone in the United States, has been elected a director of the Pittsburgh Life and Trust Company.

WALL STREET MARKET WHOLLY PROFESSIONAL

Outsiders Confess Inability to Follow the Confusing Movements.

[By Private Wire to The Gazette.]

NEW YORK, April 13.—The Herald this (Thursday) morning, says:

Operations in the stock market were wholly professional yesterday, partly as a result of the uncertain fluctuations which have marked the trading within the last few days. Outsiders confessed their inability to follow the confusing movements, and it was left to the floor trader to make the market. After two hours or more of irregularity a decisive rally developed, in which the market closed. Prices were advanced in the closing trading in no uncertain manner. Whether or not this phase of the speculation was due to a general scramble of the short interest to cover contracts does not appear. There is no doubt, however, that there was a large covering of short contracts. Dealings for the most part were concentrated in a group of three or four issues, in which the greatest gains were made. Very little news developed to explain the change in sentiment.

The trend toward a higher level became pronounced in the closing hour. Strong as was the market, however, the advance left little impression as to its stability. It has become no patent to every observer that the standard stocks at the present level move in many conflicting directions, and the upward swirl of yesterday after a period of continued irregularity served only to confuse. Again, in a professional market it is a waste of time to analyze the whims and fanciful reasons which actuate the traders in either covering their short contracts or "going long" of the market. For example, there were some authorities who explained the advance in Union Pacific as due to the report that the proposed $100,000,000 of new preferred stock would not be issued. There were the additional reports that a movement had been started to oppose in the courts the proposed issue.

U. S. STEEL BUYS IN OPEN MARKET

Plates and Structural Shapes Furnished Corporation by the Independents.

STEEL CONSUMERS IN A RUSH

Among the most interesting developments of the iron and steel market during the past week has been the entry of the United States Steel Corporation into the market to secure about 50,000 tons of steel plates from independent manufacturers. This attempt on the part of the leading producer is the best indication of the activity in this line of steel products, and in a general way applies to most other lines.

In structural steel the Corporation was compelled to make a purchase from the leading independent a short time ago, and it is stated that a neat premium was paid for this material.

The cause of these purchases is the urgency of the demand for immediate deliveries. The Corporation and the Independents alike are finding this true in nearly all lines. The consumers are eager to go ahead with the work projected at the fastest possible speed in order to be ready for the enjoyment of the present prosperity.

As usual the railroads are leading in this demand for hurry-up work. The sentiment voiced by Willis L. King, vice president of the Jones & Laughlin Steel Company, at the Traffic club dinner in Pittsburgh a few days ago, is one which every steel manufacturer feels on the subject. The railroads in their years under practically nothing, and seem to take the view that prosperous times are gone never to return. The result is that when orders begin to come from other concerns, and the demand for cars is large, the railroads jump in all at once and demand as high as 70 per cent of the entire steel capacity and enter many pretests against the slightest delay in deliveries. Mr. King urged that the railroads are big and strong enough to make a more level and equitable distribution of their steel orders.

Not a little interest has been awakened during the week in the steel market by the huge coal contract entered into by the Steel Corporation and the Pittsburgh Coal Company. The contract covers 25 years and includes the entire needs of the big steel concern, with the exception of the coal it produces from its own mines. There will be no additions to the present number of corporation mines. This is the largest coal contract ever made, and is said to be the longest in term of years with the exception of the Illinois Steel Company's contract with the Deering Coal Company, which runs for 50 years.

The shipments of ore from the upper lake ports to the valleys and Pittsburgh are expected to begin to arrive in a few days. The activity is timely. Under the pressure of the maximum furnace operation the stock of ore at the furnaces has been brought very low.

The Hardware Market.

The hardware market shows great activity, orders pushing everyone to the limit. Large quantities of goods are moving out in all lines. The particularly heavy demand continues on season goods. A large amount of poultry wire and large quantities of screen goods are being used at this time. The demand is also urgent for refrigerators, ice cream freezers, lawn mowers and goods of like kind. Nails and wire continue to move out in good quantities. A large business is being done in window glass, the demand being strong for stocks to keep the retailers going. The demand all along the line for builders' hardware, carpenters and mechanics' tools and similar goods shows considerable building in this section. Bicycle sundries and bicycles, together with other sporting goods, continue to move freely, the demand for goods in the bicycle line being an almost overwhelming demand, and testing the capacity of the dealers almost beyond the limit to fill the wants of the trade. Prices in general lines are firm, with excellent prospects of a continuance of this condition. The Bindley Hardware Company furnishes the following quotations:

Columbia pocket knives, discount 35 per cent; Albion hatchets, discount 40 and 10 per cent; Bindley canal shovels, $8 50 per dozen; Great Western files, discount 70 and 10 per cent; sheet iron, base No. 26, $2 35 the 100 pounds; galvanized sheet iron, discount, 70 and 10 per cent; sash weights, a ton, $24 00; wildow glass, small lots, 90 and 20 from list, October 1, 1903; 10-box lots, 90 and 25 from list, October 1, 1903; 50-box lots, 90, 25 and 5 from list, October 1, 1903; Albion sewing machines, discount 25 per cent; blue and white enameled ware, 60 and 10 per cent; Albion gas stoves, 40 per cent; fire shovels and pokers, 40 and 10 per cent.

PURCHASERS ARE ABSENT IN THE PIG IRON MARKET

Foundry Product Furnishes the Most Definite Development in the Weakening of Prices.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CLEVELAND, April 12.—The Iron Trade Review says:

Foundry pig iron furnishes the most definite development of the week in the weakening of prices under the abstention of buyers from the market, and in the purchase by the International Harvester Company of 50,000 tons of iron for delivery in the second half of the year. The greater part of this iron will be shipped from furnaces in the Chicago district, a smaller amount coming from the south.

Bessemer iron is firmly held at $15 50 at valley furnaces in view of pending inquiries from two steel companies apart from the Steel Corporation and the expectation that the corporation will require 55,000 to 40,000 tons of outside iron in May. New rail orders amount to 75,000 tons, including 10,000 tons for Reading, 7,000 tons for Delaware & Hudson, and 5,000 tons each for Lehigh Valley, Erie, Atlantic Coast Line and Soo road. Both trolley and steam roads are good buyers. The plate, structural and bar tonnage now on the books that is traceable to railroad buying has given the present prosperity of the mills very much the aspect of a railroad boom.

Business in sight in the east includes 40,000 tons of steel for the new East river bridge; 40,000 tons for the Pennsylvania and New York Central terminals and 7,000 tons for the New York crosstown tunnel. Prices in the finer finished forms are scarcely steady at the prices last fixed officially, this applying to sheets, tin plates, pipe and tubes and wire goods.

United Copper was very active at advancing prices in New York, gaining 3 to 10½ points. The balance of the copper stocks were quiet, with practically no changes in prices.

FLOUR BREAKS AGAIN; BUTTER VERY SCARCE

Market Conditions Are Somewhat Peculiar and Trade Is Slow.

There was little life in the local markets yesterday. Flour went down another 5 cents and is now quoted at $6 15 and $6 20 a barrel. Some dealers are not willing to name this figure yet, and maintain that it should still be quoted 5 cents higher, but as there is shading by all houses on that figure the lower quotation is really correct. This is the lowest flour has been for some months.

Butter is an extremely scarce article just now, not only in this city but all over the country. The creameries claim to be working up all the cream they can get and blame it on a failure on the part of the dairymen to fill contracts. Dairymen say they are milking to the last drop, and oleomargarine men are happy as it is giving their product a chance in the market.

Eggs are firm at 17½ and 18 cents, but the market is not as strong as it was a week ago. More hens are beginning to lay daily now, and the country districts are full of eggs which are awaiting shipment into market. Bad roads are interfering with the movement considerably. Dealers anticipate the present rates for the balance of this month.

Green goods are steady and there are no changes in prices of any moment. Trade is good and buyers are liberal in their purchases. The public seems to have thoroughly awakened to the fact that it is time to use all kinds of green goods, and is buying of the retailers in a lively manner.

HAY AND GRAIN.

Receipts.

Receipts of hay and grain yesterday were as follows: Pennsylvania lines, 9 cars hay, 1 car straw, cars oats, 1 car oats and corn. Pittsburg & Lake Erie, 1 car rye, 2 cars oats, 6 cars hay. Baltimore & Ohio, 1 car oats, 3 cars hay.

Exceedingly light receipts strengthened an otherwise dull hay and grain market yesterday. There was but little business transacted, and what was, was for goods of the best quality. Low grades of hay, etc., are compelled to hunt buyers.

Coffee and Sugar.

NEW YORK, April 12.—The market for coffee futures opened steady at unchanged prices to a decline of five points under selling for European account and somewhat lower calls. A private cable from Brazil stated that the smaller receipts there were due to the new rule of Brazilian exchange and that receipts for the month would probably scarcely reach estimates, but shrinkage was reported slightly lower by the early cable, and European cables from private sources predicted a continued decline. Bearish interests were selling in the local market and while there was less nearby liquidation prices ruled easy, particularly in the late trading. The close was easy at

LICENSE CASES MAY END TODAY

Judges Announce They Expect to Finish the Wholesale List Before Night.

POLITICIANS GET A ROAST

Judges Shafer and Kennedy announced at the close of license hearings yesterday that they expected to wind up the session of 1905 today.

A grand rally finished up to the end of Braddock when court adjourned last night. A few postponed cases may have to be heard on Friday. As in the retail list, McKeesport politicians are frequent signers on the applicants' petitions, and Attorney M. H. Stevenson directed the court's attention to the fact.

John Costello, select councilman from the Thirty-fifth ward, who is applying for 400 Wabash avenue, Thirty-sixth ward, was asked about the "You Bet" club and did not know whether he sold to it or not. He admitted that John A. Miller had sued him for commission on beer sales and got a verdict. The case had been appealed and Costello said he had never employed Miller. Detectives Berry, Eash and Starkey testified to sales being made to the "You Bet" club at Cooke run. Costello's drivers were called and one of them was rather flippant until reproved by Judge Kennedy. It was finally developed that the "You Bet" club was the Philharmonic club. Costello's attorney said the members went away in the summer. Judge Shafer said he presumed they got the money by selling liquor in the winter. As Costello turned away from the bench he said: "We came to the court for justice, and if we cannot get it here we cannot get it anywhere."

The Allegheny list ran smoothly until Julius Hoechstetter, 76 Taggart street, was reached. A. H. Kanofski has a license there now and will sell his stock at invoice if Hoechstetter is given a license. The evidence all concerned events of the past year. John McGarvey, who lives next door, had a list of dates of wagons being loaded after closing hours, of sales to children and of Kanofski coming home drunk. The loading was partly done in front of his home despite his remonstrances. He denied that his daughter had turned the hose on a driver or that he had tried to force Kanofski to buy his place. A witness for Kanofski said McGarvey's price was $6,500 and that the place was not worth $2,500.

The Spring Brewing Company, of 1812 East Ohio street, belongs in Lawrence county. They simply ask for a license to sell their own product. The company's secretary stated that 290 shares, a majority of the stock, is held in Allegheny county. Judge Shafer remarked that they would not do much business in Allegheny if people did not like their beer.

Fred W. Steckel has had a license for four years and says he has obeyed the law. He is at 212 Fifth avenue, McKeesport, and stated that he had heard there were some disorderly houses in McKeesport, but did not personally know of them. A league detective testified that during last month he saw Steckel's wagon make deliveries to houses of ill fame. Special reference was made to Annie Gray's place, she having formerly resided in Third avenue, Pittsburgh. Attention was given to 22 Fourth avenue, McKeesport, and Attorney Stevenson called the court's attention to a rare photograph of three drunken women and three male companions. This was to show the character of some of Steckel's alleged patrons.

Jacob Weiskircher and W. O. Weiskircher have had a license for years at 336-338 Fifth avenue, McKeesport. Attorney Stevenson asked Jacob Weiskircher how many licenses he owned, and the applicant said one. Stevenson by his questions and by referring to statements of previous applicants indicated that Weiskircher was interested in some other licensed houses. The applicants' attorney presented a petition withdrawing the name of Jacob Weiskircher in the joint application, the reason being that since it was filed the latter has been elected president of the Tuba City Brewing Company. Jacob Weiskircher denied that he had offered $300 or any other sum of money to a McKeesport minister to withdraw a certain church's opposition in connection with the application for a retail license made by Michael Joyce. At the time the latter was in court a few days ago this matter first came up in public.

Adolph Hecht, Braddock avenue, Braddock, admitted that he is under indictment on a cruelty charge, growing out of trouble with his wife.

Holds Hartmus for Court.

Oscar Hartmus of 506 Kilbuck street, Allegheny, who was arrested Tuesday night in Cecil alley by Policeman Michael Redman, after a long chase in which the officer shot at him several times, was given a hearing yesterday afternoon before Alderman Samuel Abernathey. He is charged by Herman Donges, a bartender, with aggravated assault and battery. Donges testified that Hartmus threw a brick, striking him on the head. He was sent to jail for court in default of $500.

THE THREE RIVERS

The stage of water at Davis Island dam at 8 o'clock last night was 9.8 feet and the river was falling slowly.

[Special Telegram to The Gazette.]

CINCINNATI, O., April 12.—At 6 p. m. the Ohio river at Cincinnati was 18.7 feet and falling. Today's packet departures were: Greenwood, Pomeroy; Courier, Maysville; Levi J. Workum, Madison, and City of Louisville, Louisville.

STEUBENVILLE—13 feet and rising. Clear and cool. Up—Ben Hur.

WARREN—2 feet 1 inch. Clear and mild.

BIG BOATS TIED UP.

River Did Not Reach Expected Stage and Shippers Were Disappointed.

Rivermen were deeply disappointed yesterday morning when the rivers tantalizingly rose to a height of nine feet and stopped at that. Another 18 inches would have made reasonably safe boating water and a lot of boats were tied up to their fleets, ready to start on the trip south. There was plenty of barge water, but not any great plenty of barges. The Ironsides, Pacific and Tom Rees got away with tows of barges for the river coal company. The Melen White took down a tow of barges for the United Coal Company. The Jutte Company sent out the G. W. Thomas and the Clyde Company got out the Clyde. The Josh Cook, Jim Wood and Raymond Horner took advantage of the rise and went to Louisville light to bring up empties. In all about 1,500,000 bushels of coal got out yesterday, much less than was at first counted upon. Tuesday, when it was believed boating water would be reached here, it was arranged to send tows that would have aggregated 4,000,000 or 5,000,000 bushels.

James D. O'Neil has been made manager of the river department of the United Coal Company.

Capt. John F. Klein will run another excursion next Sunday on the barge Beauty.

The Admiral Dewey was the Morgantown boat in and out yesterday. She had a big freight trip and a number of passengers both ways.

The Virginia will be the Cincinnati boat in Saturday. She will leave again Saturday afternoon at 4 o'clock.

The Ben-Hur will be in this morning from Parkersburg, W. Va. As usual she will bring a big shipment of eggs and other farm produce.

Joseph Miller, John Teal, Warren Powell and James Read, deckhands, filed a libel in admiralty against the steamboat Mariner, owned by the Monongahela River Consolidated Coal and Coke Company. The libel was filed by the men to procure transportation to their homes at down river points and the suit was settled by the company paying the claims.

John Link filed a libel against the steamer Raymond Horner. He alleges he was discharged from the services of the boats' owners at Louisville, Ky., and that his railway fare back to this city was refused him.

Allegheny Politician is Insane.

William G. Henderson of the Second ward, Allegheny, who for years was prominent in politics, was yesterday taken to the insane department of the city poor farm at Claremont. Henderson has been suffering for months with a serious ailment, and for the past month has been confined in the Allegheny General hospital. It is said that on Monday he threatened to kill himself. Several years ago Henderson worked in the county treasurer's office.

CUPID AND CREDIT
GO HAND-IN-HAND AT SPEAR'S

Never in the average young man's life is installment credit on furniture such an absolute, vital necessity as when he is just newly wed or is about to take unto himself a life partner. His expenses climb and climb into figures he has not anticipated. The thousand and one little things requisite to the comfort of his bride and himself undermine the snug little sum he has saved for the occasion. Clothing and food are now two-fold considerations. And they must be paid for at least by the end of each month.

Furniture, while not exactly necessary to existence, is assuredly necessary to comfort. It is at this point that the beauty of our installment credit system is best shown. For (thanks to the reasonable, sensible and accommodating features of our system), the newly-married man can furnish the little home at once—furnish it with lasting, serviceable, highest-class goods—furnish it well and cozily throughout—and pay for it in installments that are so insignificant as to be anything but a source of worry and trouble.

A DOLLAR OR TWO A WEEK WILL DO

"THEIR FIRST BREAKFAST"

ON A SPEAR EXTENSION TABLE—Exactly like illustration, polished oak, six feet long, 46-inch top, price $19.50

TERMS ON THIS EXTENSION TABLE: $1.50 CASH, $2.00 MONTHLY.

If we exacted one cent of tribute for this credit accommodation—if we did not give, at least, as good qualities and as good values for the same amount as stores that demand cash—then surely we would have but little to argue in favor of our system.

But it is because we exact nothing and extend everything that we heartily commend our installment credit system to brides and grooms, to the parents of brides and grooms, and to the friends and well-wishers of the brides and grooms.
